Customer Reviews

"A puzzling global phenomenon" [The Economist](#) "The biggest craze to hit The Times since the first crossword puzzle was published in 1935." [The Times of London](#) "England's most addictive newspaper puzzle." [New York magazine](#) "The latest craze in games" [BBC News](#) "Sudoku is dangerous stuff. Forget work and family" [think papers hurled across the room and industrial-sized blobs of correction fluid. I love it!](#) [The Times of London](#) "Sudokus are to the first decade of the 21st century what Rubik's Cube was to the 1970s." [The Daily Telegraph](#) "Britain has a new addiction. Hunched over newspapers on crowded subway trains, sneaking secret peeks in the office, a puzzle-crazy nation is trying to slot numbers into small checkerboard grids." [Associated Press](#) "Forget crosswords." [The Christian Science Monitor](#)

Sudoku: One of life's simple pleasures Sudoku has taken America by storm! Puzzled by the wordless crossword puzzle? Try one or two of these simple, easy-to-solve sudoku and you'll discover what millions of fans already know: There's nothing as fun as sudoku! Features: [100 all-new simple sudoku](#) Edited by legendary New York Times crossword editor and "America's

puzzlemaster" Will Shortz's Big grids with lots of space for easy solving

They aren't kidding about these Sudoku puzzles. They are really tough! I recommend them to anyone who has done so much Sudoku that the regular ones seem tame, and they are looking for a challenge. Definitely not for the beginner.

Love the book - of course I wish it was a spiral bound so you could flip the pages around and lay them flat. The puzzles come in two levels - "Demanding" and "Beware! Very Challenging". For the experienced sudoku-er, demanding puzzles can be solved pretty easily. Little numbers are required, but the few puzzles I have done so far can be solved easily after one or two "break-throughs". I did one very challenging one so far, and it required guessing and seeing how the guess worked out. I'm pleased with this range of difficulty, although I hope that the demanding ones get a little bit more challenging without requiring a guess. One major complaint - the paper they chose for the book is not good. It is that soft paper that tears very easily with a sharp pencil. Slows down my process since I have to be mindful of using the side of the mechanical pencil that is worn down and not sharp. But so far the puzzle quality makes it worth it.

I love sudoku and very much have enjoyed every Will Shortz book I have tried. My only gripe would be is that the pages don't need to be quite as tall. There is a lot of blank space, and if the book were shorter, it would also be easier to stuff in a purse. Great book though. Enjoy!

I got this as a gift for my birthday from my husband as he knows I love sudoku. I have an easy-medium book [not from this range] and the puzzles were too easy so I wanted something to challenge me. These are certainly a challenge if you're just beginning to dabble in something a bit harder than the 'hard' levels. I have found that I can't actually do the second half of this book yet, without learning a more advanced technique, so it might be a little harder than I was expecting. The size of the book is great; I took it to the park yesterday. The paper is nice for writing with a pencil, and the graphics on the cover are beautiful. I really recommend this book to anyone wanting to progress from 'hard' to slightly harder sudoku.

I dislike Sudoku that is too easy - and so far nearly every one of these makes me work. I would rate them mostly difficult to diabolical. There's only a single puzzle per page so the size of the squares makes it easier to put in crib notes.

Puzzles begin at the right difficulty for me-demanding but not the most challenging level. The puzzles become increasingly challenging until they're too hard for me which is good because I want to improve. Book is only large because there's only one oversized puzzle per page. I wish all puzzle books had spiral binding that would allow the pages to lie flat. I tear out the pgs and put them on a small clipboard which makes working on them easier.

These are really difficult without being so difficult that i give up. It's fun and has a good paper (not too thin).I wish it had like....rings to flip the pages over but it's still great.

The day I received the book; it took me 15-20 mins to complete several puzzles in the demanding level. It took me over an hour to complete my first "beware, very demanding" puzzle. Wow, what a challenge indeed :) The only complaint I have is the type of paper when it comes to erasing multiple times. But I'm a happy camper with the puzzles so far :) Plus, I love the I size of the puzzles. Large squares and plenty of space outside of the box to scribble notes. :)
