<http://www..com/My-Daily-Journal-Colorful-Vector/dp/1519398204> Are you harnessing the power of a journal? If you are going through life right now feeling like everything is out of control or that things are not happening the way you planned, you need a journal. I don't mean to be too direct, but it is time for you to discover why you feel the way you do and then figure out what to do about it. The great thing about a lined journal is you can make it into anything you want. A day timer, diary or a notebook for school, etc. If you need to write something down, a journal is the tool you need. If you want to use it for more than just a notepad then keep reading.

### Benefits Of Keeping A Journal

Almost every successful person seems to have kept a journal in one form or another. Success in this case is not defined by money but overall happiness. Whether or not they called it journaling doesn't matter as they kept a record of their goals, success, failures, feelings and their daily life. Your journal contains the answers to your most burning questions. It is literally the best self-help book you could ever read. Just some of the benefits of journaling are:

- Allows you to reflect on your life and the changes you are choosing to make or not make
- Clarifies your thinking and as Tony Robbins says "Clarity is Power"
- Houses all your million dollar ideas that normally get lost in all the noise of life
- Exposes repeated patterns of behaviors that get you the results you DON'T want
- Acts as a bucket for you to brain dump in a cluttered mind leads to a disorganized life
- Revisits daily situations giving you a chance to look at it with a different perspective
- Doesn't crash and lose everything you put into it like electronics (just like electronics though don't get it wet)

You may want to keep multiple journals. One that contains your truest and most secret feelings that you guard heavily, but need a way to express. Another that contains all those fantastic ideas, dreams and awesome goals. Maybe just something you doodle in. No matter how you use it getting into the daily habit of journaling has the potential to improve the quality of your life.

### How To Use A journal

Let's look past the simple fact you know how to physically write in a journal and dig into how to actually use your journal. It might contain all the secrets to life's biggest problems but unless you know how to uncover those secrets they stay hidden away in your words. Let the words flow from the heart and be filled with emotions, no holdbacks

Make a daily journaling schedule. Each and every day take the time to record your thoughts morning and night. If you love to type notes into your phone all day transfer them to your journal after. Sit in a quiet spot and allow yourself to be judgement free. Your journal is not a reason to turn yourself into an emotional punching bag. Start small. You do not need to write a specific number of words. Just the right amount of honest words that let you feel a sense of being

free from negativity and energized with possibility. If you write in your journal like someone is going to read it, you will never allow yourself to fully express what needs to be expressed. Write like no one will ever read it because it is likely no one ever will unless you want them to. Write how you loved something, were mad at someone, wished something was different or anything you need to. Just do it. Start today writing in your journal. You could even put "Today I bought this awesome journal and will recommend all my friends do the same." Wink Wink

## Customer Reviews

Blank Book Billionaire is the creative force behind many different types of blank books or utility books as some people call them. They focus on creating books that help people express themselves or simply keep track of things. The sky is the limit for what you can create with these blank books. Not all the books are blank, of course. There are lined journals, gratitude journals, travel journals, pregnancy journals and many others. Some have prompts while others have sections that are designated for specific information. Our mission is to provide you with every type of blank book you might need. If they don't have it now, they will soon. Journaling is their passion and hope to inspire people to make it a part of their daily life. Essentially journaling to them is the act of writing down everything a person wants to remember or reference back to. Whether that is emotions, life events, recipes, pregnancies or your to do list, writing it down is the most powerful way of ensuring it never gets forgotten. What you can do with a blank book is only limited by the

amount of imagination you put into it. Make it a diary, a meal planner, a diet journal or just doodle in it. The point is to get one or seven and use them. Make life easier by unleashing the hidden power of a blank book.

Basically a notebook, I thought it was hard binded. Basically used it for writing notes.

It is not good quality. I could pick up something comparable at the dollar store. Like the other reviews, it is flimsy. I didn't even think to read the reviews for a journal, but I wish I had read them. I'm not sure I like the design now that I see it in person. I am in need of a journal, and won't use this, as it is not durable at all. I'll give it to my kids and order myself a hardcover journal...and read the reviews!

flimsy.. though it would be sturdier

Loved the cover wasn't so pleased with the book itself. Flimsier than I anticipated.

Not worth the money! Soft covered and flimsy. I thought it was hard-covered although the description didn't state it. In fact it didn't state it as soft covered either. Was going to return it but since it shipped from the UK I am not spending anymore money on it. The buyer states that this product ships from the USA. Wrong! It came from overseas.

Thinner than expected and not quite as strong in material

Super cute but thin and cheap, we bought it as a gift and had to get a better one!

With the exception of the artistic design on the front cover (which is what caught my attention), this is a very cheap product. I was very disappointed in this purchase.
