Marker Rendering For Fashion, Accessories, And Home Fashion

Synopsis

With the growing trend of licensing apparel, accessories, and home fashions under a single logo, today's students must expand their portfolios to include concepts with broader applications. *Marker Rendering for Fashion, Accessories, and Home Fashions* provides detailed instructions for marker rendering methods relevant to a variety of products. Allowing designers to express their ideas immediately, the marker is an essential tool for the design professional. The author's step-by-step instructions provide a sound introduction to the skills that students need, and teaches methods of overlapping media applications for an assortment of colors, patterns, and materials. The lessons are taught as a progression of skills, building slowly from basic to complex rendering methods used in the design industry today.
