Scarlet Heat: Born To Darkness Series #2

Synopsis

Taylor is a vampire - but she doesn't want to be. Turned against her will by her sadistic mistress, Celeste, she has been living a miserable life of bondage and abuse for the past six years. Finally, through the help of her best friend, Addison, Taylor is rescued, but she can't relax for long. In order to save her from an even worse fate, she is married off to Victor - a very reluctant groom who just happens to be a werewolf. Victor doesn't want to be responsible for the fledgling vampire, no matter how beautiful she is. Especially when he finds out he is the only one she can drink from. But aside from the strange arousal that overtakes him every time she sinks her dainty fangs into his throat, he has other problems to deal with...and a very big secret to hide. Their marriage of convenience is supposed to last for only three months, but Victor and Taylor find themselves drawn together by more than the vows they took. But as their attraction grows, so does something else. Inside Taylor, something is changing. She begins to have physical cravings she has never had before, insatiable appetites that only Victor can satisfy. Will she succumb to the madness growing within her, or can Victor save her from the Scarlet Heat?

Best Sellers Rank: #240 in Books > Audible Audiobooks > Fiction & Literature > Erotica #7202 in Books > Literature & Fiction > Erotica #62284 in Books > Romance

Customer Reviews

I don't know how she does it. The first book in this series, *Crimson Debt* was released about a month ago. I'm amazed that Evangeline Anderson can produce such a wonderful piece of work in such a short time. *Scarlet Heat* is even better than *Crimson Debt*. Taylor and Victor matched and balanced each other so well. I think Evangeline did a really good job of exploring and tastefully discussing Taylor's past abuse. Victor is possibly one of my favorite heroes. He was so patient, loving, kind and understanding with Taylor. I love how Taylor grew throughout the book and turned

into a confidant, beautiful person. As always the chemistry and sex is off the charts hot. Evangeline has a way of writing amazingly erotic sex scenes. I appreciate that the sex scenes add to the storyline and not just thrown in there for the hell of it. Rather, every sex scene has a clear purpose and helps to build the love and connection growing between Victor and Taylor throughout the book. I would highly recommend this book to anyone. It's at a bargain price and just a wonderful read. I also recommend reading the first book in the series as well. Please check out the rest of this author's work. You won't regret it!

I just love this couple! Victor is an alpha werewolf with a natural antipathy towards vampires...yet he's drawn to his forced bride, Taylor. Taylor is sweet, vulnerable, and has spent the last six years forced to bend to the will of others; her response to her unwilling groom is both dismaying...and intriguing! Book Two has it all - characters to love (or love to hate), an engaging storyline, sexual tension (in spades!), surprises, drama, and a satisfying conclusion. Even the misunderstanding, which is both annoying and understandable, contributes both to the HEA and the plot of the third story in this series. And it is a pure pleasure to witness Taylor's hard-earned ownership of her power. Well done, Ms. Anderson!

My second favorite of this series so far. Not your standard werewolf tale, and definitely not Underworld. However... there were was a section that felt too close to one of Lauren Hamilton's locales (or a night-time Lion King perch)... Oh well. I guess it's a small world when it comes to plot lines, but I think Ms. Anderson could have tried for something a touch different than the archetypical meeting rock. She does make the hero and heroine very likable characters.

In this second installment of Born to Darkness, Victor and Taylor begin their story. Neither of them wanted a blood bond, but were forced to do so in order to keep her safe and for him to pay off a Crimson Debt to Corbin, a vampire from the first book. Taylor has been changed to a vamp against her will and doesn't seem to be very good with all the things vamps do so easily. Her Master is a very sadistic old vampire who treats her horribly for 6 years. So as she and Victor begin their relationship, there are so many scars and fears that this does not go well. Oh, and her "husband" is a werewolf....mortal enemies! As the story progresses, Victor comes to care for Taylor and tries to gain her trust. He is very kind and gentle with her and their relationship becomes very touching and sweet. He has his own demons to deal with and they have a lot of misunderstandings. I really liked this book and there are several parts that were so sad because it was difficult to know what was

going to happen. I understand that the third book in this series is coming out soon, but have no idea when that is. Just guess I'll have to keep checking.

Sexy wolf and a literally hot Vampire...What could go wrong? Evangeline Anderson does it again. She's created a world where the paranormal exist, and you can't help but want to be part of that world. I loved this book, and the characters were so well developed I feel like I know them. A must read for those who love both romance and erotica.

I really loved this one, even better than the first book. I did find a few typos in this book though which surprise me. There were only a few though so not enough to really ruin the book but it was a surprise since the first book didn't have any. So loved this, loved both Taylor and her Wolfman. This book was really exciting hard to put down, staying up way past late to read it kinda book. I love this kind of book!! also liked how vampires and werewolves are in this series, meaning the rules they have to abide by and the ceremonies they do and the lore and all that. It's a bit different than some of the other books out there. I also loved how well it was written and how descriptive the book was. It really made me feel like I knew the characters in the book. I look forward to reading by this author. If you like paranormal romances but like a more actionable good plotline, then you should really enjoy this series. So far the second was better than the first so I'm hoping Amber three is even better and is a five star book.

I have read every book in Evangeline Anderson's Kindred Bride Series and I loved them all. I loved traveling with her to other worlds and I think her characters are well written. I was impatiently awaiting the next book in the Kindred series when I saw that her book Crimson Debt was free. Free books are no brainers right...I mean, you get the opportunity to try a book/series/writer out at no cost or risk. Seems foolish not to take that opportunity. Well, before I finished reading Crimson Debt, I had already purchased Scarlet Heat and Ruby Shadows. Another great series!! I am now anxiously awaiting any books this author publishes. I did find a few errors, but it didn't take away from the story. Honestly, anyone who texts knows that just because you wanted your phone to write one thing that doesn't mean that's what it writes. Anyway, do yourself a favor and try out both the Born to Darkness and The Kindred Bride Series. All the books are super good reads!
