Customer Reviews

Kind of humdrum, but informative. Not nearly as inspiring as other books on the subject. I'd say it's a vanilla flavor book.

Michael Dirr is a god to Master Gardeners when it comes to trees and shrubs, and he adapts his style nicely to this Ortho series of books, which were my very first primers in the gardening world. I still go back to all of them, and this one in particular is concise, thorough and pretty darn comprehensive!
