Designing The User Interface: Strategies For Effective Human-Computer Interaction (6th Edition)

Synopsis

For courses in Human-Computer Interaction

The Sixth Edition of *Designing the User Interface* provides a comprehensive, authoritative, and up-to-date introduction to the dynamic field of human-computer interaction (HCI) and user experience (UX) design. This classic book has defined and charted the astonishing evolution of user interfaces for three decades. Students and professionals learn practical principles and guidelines needed to develop high quality interface designs that users can understand, predict, and control. The book covers theoretical foundations and design processes such as expert reviews and usability testing. By presenting current research and innovations in human-computer interaction, the authors strive to inspire students, guide designers, and provoke researchers to seek solutions that improve the experiences of novice and expert users, while achieving universal usability. The authors also provide balanced presentations on controversial topics such as augmented and virtual reality, voice and natural language interfaces, and information visualization. Updates include current HCI design methods, new design examples, and totally revamped coverage of social media, search and voice interaction. Major revisions were made to EVERY chapter, changing almost every figure (170 new color figures) and substantially updating the references.

Book Information

Hardcover: 608 pages

Publisher: Pearson; 6 edition (April 30, 2016)

Language: English

ISBN-10: 013438038X

ISBN-13: 978-0134380384

Product Dimensions: 7.7 x 1 x 9.3 inches

Shipping Weight: 2.3 pounds (View shipping rates and policies)

Average Customer Review: 4.0 out of 5 stars 1 customer review

Best Sellers Rank: #19,893 in Books (See Top 100 in Books) #9 in Books > Computers & Technology > Graphics & Design > User Experience & Usability #20 in Books > Textbooks > Computer Science > Software Design & Engineering #24 in Books > Computers & Technology

Customer Reviews

BEN SHNEIDERMAN (<http://www.cs.umd.edu/~ben>) is a Distinguished University Professor in the Department of Computer Science, Founding Director (1983-2000) of the Human-Computer Interaction Laboratory (<http://www.cs.umd.edu/hcil/>), and a Member of the UM Institute for Advanced Computer Studies (UMIACS) at the University of Maryland. He is a Fellow of the AAAS, ACM, IEEE, NAI, and SIGCHI Academy and a Member of the National Academy of Engineering, in recognition of his pioneering contributions to human-computer interaction and information

visualization. ¶ CATHERINE PLAISANT (<http://hcil.umd.edu/catherine-plaisant>) is a Senior Research Scientist at the University of Maryland Institute for Advanced Computer Studies and Associate Director of Research of the Human-Computer Interaction Lab. Catherine Plaisant earned her Ph.D. in Industrial Engineering at the Université Pierre et Marie Curie - Paris VI, France.

She was elected to the ACM SIGCHI Academy in 2015 for her contributions to the field of human-computer interaction, medical informatics, and information visualization. ¶ MAXINE COHEN (<http://cec.nova.edu/faculty/cohen.html>) is a Professor in the College of Engineering and Computing at Nova Southeastern University in Fort Lauderdale, FL. She teaches graduate courses (on campus and online) in Human-Computer Interaction, Interaction Design, and Social Media and advises doctoral students. Previously she worked for IBM (Endicott, NY and Boca Raton, FL) and taught at the Watson School of Engineering at Binghamton University. She has served as a meta-reviewer for ACM Computing Reviews for over 20 years. She earned her Ph.D. and M.S. from Binghamton University and her B.A. from the University of Vermont. She is a member of ACM, IEEE, and UPE.

¶ STEVEN JACOBS (<http://cefns.nau.edu/~smj93/>) retired from the aerospace industry and is now a Lecturer in the School of Informatics, Computing, and Cyber Systems as well as University College Faculty Fellow at Northern Arizona University, Flagstaff, Arizona. He was with Northrop Grumman Information Systems (formerly TRW) in Carson, California for 25 years. He was also Adjunct Assistant Professor at the University of Southern California Department of Computer Science for 17 years, where he developed and taught their graduate courses in user interface design and human performance engineering. He received his M.S.C.S. from UCLA and B.A. in Mathematics from Monmouth University (NJ). Mr. Jacobs is a Senior Member of ACM. ¶ NIKLAS

ELMQVIST (<http://sites.umiacs.umd.edu/elm/>) is an Associate Professor in the College of Information Studies at University of Maryland, College Park, with affiliate appointments in the Department of Computer Science and the UM Institute for Advanced Computer Studies (UMIACS).
