# Jung On Christianity (Encountering Jung)

## Synopsis

C. G. Jung, son of a Swiss Reformed pastor, used his Christian background throughout his career to illuminate the psychological roots of all religions. Jung believed religion was a profound, psychological response to the unknown--both the inner self and the outer worlds--and he understood Christianity to be a profound meditation on the meaning of the life of Jesus of Nazareth within the context of Hebrew spirituality and the Biblical worldview. Murray Stein's introduction relates Jung's personal relationship with Christianity to his psychological views on religion in general, his hermeneutic of religious thought, and his therapeutic attitude toward Christianity. This volume includes extensive selections from *Psychological Approach to the Dogma of the Trinity*, "Christ as a Symbol of the Self," from *Aion*, "Answer to Job," letters to Father Vincent White from *Letters*, and many more.

## Customer Reviews

Text: English (translation) Original Language: German

"One thing above all should be stressed: Jung's ideas [about religion] are not the result of mere theory or of historical research--they have been wrested from the hard facts of his psychotherapeutic practice.... Jung is, by profession, a medical pastor of souls.... Thus, he not only possesses a very deep insight into the spiritual life of modern man; he also has to look round for

what can help these sufferers."--Hans Schaer, Religion and the Cure of Souls in Jung's Psychology"Stein provides a good selection of Jung's texts with a clear introduction to his Christian background and theory of Christianity."--Diane Jonte-Pace

This collection of excerpts from the writings of psychologist Carl Jung on religion wonderfully illuminates the extraordinary insights of this bold thinker on the spiritual core of human beings. This book is not for the dogmatic person on either side of rationality.
