## Customer Reviews

This was a joke and a rip off! Point blank you cheated me out of my money with this deceitful product description. As the other 1 star comment said what I got was not the pictured item. I received a 32pg booklet/insert. IT IS ABSOLUTELY NOT WHAT IS PICTURED HERE!!! This pamphlet at most is hardly comprehensive as stated above. The same picture above is printed on the cover of this leaflet in a very blurred manner. Then again picture on on the front cover. The thickness alone in the pictured item above shows clearly a larger book that yes may be comprehensive. The item I received is so small it could possibly be an insert to the above pictured item.

Do Not Buy This Book! it is full of very incorrect and harmful information. It is not a complete book, each chapter is a page long with no info. DO NOT BUY. For example: it says to hold the outlining machine at a 45 deg. or steeper angle, and dilute colors with witch hazel. very incomplete.

This is not even what is pictured. here. If you look close - it is a picture of a real book printed on a

piece of paper. looks like this is a lot of info - it is definitely not. Save your money.

It was misleading and nothing like I expected if I could give it no stars, I would. It had a minimum of information in it. I was very disappointed for the price I paid. If I wanted a brochure I could just get that for free from any religious missionary passing by.

Only the most obvious information about tattooing. No specifics. Additionally the grammar and spelling are very poor. Overall a poor choice for books about tattooing.

i was very unhappy with the product, the picture was very misleading. the picture showed a book of a decent thickness, what i recieved was a thirty page pamphlet, if i would have known thats all it was ai never would have ordered it.

It's a good magazine and it helps but I thought I was getting the real book.

basic information that can be found anywhere on the internet don't waste your money
