I just got this book and I can say I am soo overly happy & inlove!Mrs. Rambo did an amazing job on this book and she is awesome. I personally love one page as she drew it off of some pictures of my chinchillas (she personalized this copy for me, book doesn't have their names) . But I can truthfully say that's not the only page I love. There are so many great pictures in this book and I love it!AND the pages are one sided so you don't have to pick one or the other picture. Couldn't be happier!Video review<https://youtu.be/X8I4nDagybQ>

What an incredible book! These pictures are all hand drawn instead of made on the computer which makes this book really unique! Each page is one sided so that you don't have to worry about bleed through when using markers or pens to color with. None of these creations repeat and there are so many different types of drawings to color that you'll never be bored!

I love coloring her drawings because it opens your imagination!

Love this book, has inspired me to take my coloring to a whole new level. As someone else said it opens the imagination! Love it. Definitely recommend!
