# Group Dynamics

## Synopsis

Offering the most comprehensive treatment of groups available, *GROUP DYNAMICS*, Sixth Edition, combines an emphasis on research, empirical studies supporting theoretical understanding of groups, and extended case studies to illustrate the application of concepts to actual groups. This best-selling book builds each chapter around a real-life case, drawing on examples from a range of disciplines including psychology, law, education, sociology, and political science. Tightly weaving concepts and familiar ideas together, the text takes readers beyond simple exposure to basic principles and research findings to a deeper understanding of each topic. Available with InfoTrac Student Collections <http://gocengage.com/infotrac>.

## Customer Reviews

Dr. Donelson R. Forsyth is Professor and the Colonel Leo K. and Gaylee Thorsness Endowed Chair in Ethical Leadership in the Jepson School of Leadership Studies at the University of Richmond. A social and personality psychologist, he studies groups, leadership, ethical thought, and moral judgment. He has authored over 150 chapters, articles, and books on ethics, groups, and related topics, and his work has appeared in the *Journal of Personality and Social Psychology*, *American Psychologist*, and *Personality and Social Psychology Bulletin*. He was recognized as the Outstanding Group Psychologist by the American Psychological Association in 1996, and received the State of Virginia Outstanding Faculty Award in 2002 and the Distinguished Educator Award from the University of Richmond in 2010. He received his Ph.D. in Social Psychology from the University

of Florida.

While I'm only 4 chapters in, the book crams a lot of technical information in each. The information is made real in each chapter with a true story at the beginning which exemplifies each term/definition and flows throughout the chapter to give a more "real world" application. I have enjoyed it thus far.

learned a lot through this book and the course. provides a lot of examples that are useful when trying to apply theory and information to real life. rented from as the book was pricey to purchase.

This book was needed for a class I took at school and it came in on time and was very helpful.

I was required to get this book for a class, and I'm keeping it because it has a lot of useful information. If you want to know more about group dynamics or are going to be working in groups a lot, I would recommend reading this book.

Good Job !

Needed for masters degree class great book

An outstanding resource for Group Dynamics. This is a book I want to keep in my library.

I seriously got lost in the text, but in a good way. It presents so much insightful information on the social psychology of groups. It is a must have resource for a business management degree.
