Fred C. Rohde was a senior biologist with the North Carolina Division of Marine Fisheries for twenty-five years before joining the National Marine Fisheries Service in Beaufort, North Carolina. Coauthor of *Freshwater Fishes of the Carolinas, Virginia, Maryland, and Delaware*, Rohde has been studying fishes in South Carolina since 1977. Rudolf G. Arndt is a professor emeritus and an adjunct professor of marine science at The Richard Stockton College of New Jersey, where he has taught since 1974. He is also a coauthor of *Freshwater Fishes of the Carolinas, Virginia, Maryland, and Delaware*. Jeffrey W. Foltz is a professor of fisheries at Clemson University, where he has taught since 1978. Joseph M. Quattro is an associate professor of biological and marine sciences at the University of South Carolina. He has studied the evolutionary history of Carolina fishes and taught ichthyology since 1995.

One of the best guide books out there (especially for South Carolina ... duh). Very detailed with great distribution maps.

This is an extremely well-crafted and attractive fish book. It's great when publishers allow the space to spread out the information and allow large illustrations. The front matter is interesting and comprehensive. I especially like and appreciate having the historical background on the exploration of South Carolina ichthyology.

This guide to the fishes of the Palmetto State is very readable and very informative. Certainly worth it for people with a greater than average interest in fishes in general, but especially those of South Carolina.

I would highly recommend this book to anyone interested in freshwater fish. Everything about the book is very good to excellent.

This book is an excellent reference book for any one interested in learning more about the freshwater fish found in South Carolina. I collect wild caught fish and haven't come across a fish that isn't found in this book. Beautiful pictures, great information, simple and effective system for identifying fish species.....a really comprehensive book. I have learned so much from it.
