Lost And Found: Helping Behaviorally Challenging Students (and, While You're At It, All The Others) (J-B Ed: Reach And Teach)

Synopsis

A practical, compassionate, effective approach to helping students with behavioral challenges. *Lost & Found* is a follow-up to Dr. Ross Greene's landmark works, *The Explosive Child* and *Lost at School*, providing educators with highly practical, explicit guidance on implementing his evidence-based Collaborative & Proactive Solutions (CPS) model with behaviorally-challenging students. While the first two books described Dr. Greene's non-punitive, non-adversarial approach and described implementation on a macro level, *Lost & Found* provides more explicit details on key facets of the CPS model, including using the Assessment of Lagging Skills and Unsolved Problems and solving problems collaboratively (and coaching others to do so).

Readers will learn how to incorporate students' input in understanding the factors making it difficult for them to meet expectations and in generating mutually satisfactory solutions. Specific strategies, sample dialogues, and time-tested advice help educators implement these techniques immediately. The groundbreaking CPS approach has been a revelation for parents and educators of behaviorally-challenging children. This book gives educators the concrete guidance they need to immediately begin working more effectively with these students. Implement CPS one-on-one or with an entire class. Work collaboratively with students to solve problems. Study sample dialogues of CPS in action. Change the way difficult students are treated. The discipline systems used in most K-12 schools are obsolete, and aren't working for the kids to whom they're most often applied: those with behavioral challenges. *Lost & Found* provides a roadmap to a different paradigm, helping educators radically transform the way they go about helping their most challenging students.

Book Information

Series: J-B Ed: Reach and Teach

Hardcover: 224 pages

Publisher: Jossey-Bass; 1 edition (April 25, 2016)

Language: English

ISBN-10: 1118898575

Customer Reviews

"For anyone who has had the pleasure of hearing Ross Greene talk about how to work with young people -- and who has wished that you could bottle him -- here, finally, is the bottle! He shares in clear prose how to open the doors to the communication and collaboration that give rise to real growth and understanding. His approach is so reasonable, so empathic, and so effective that having this guide is a true gift. With no jargon to overcome, and an approach grounded in the common ingredients of effective counseling, Dr. Greene offers readers a clear and good-natured map with examples of problems everyone who knows and works with children will recognize."--
LAURA ROGERS, EdD, Co-Director, School Psychology Program, Department of Education, Tufts University

"I wrote Lost & Found as a followup to Lost at School...it provides a lot of the technical information that I couldn't include in Lost at School, along with commentary from educators who've been implementing the Collaborative & Proactive Solutions model in their schools. I really wanted to make sure their voices were heard. They make it clear that transforming the ways in which we treat our most vulnerable students is not only doable but also absolutely crucial." --
Ross Greene

This is such an interesting concept. I would love for schools and families to take up this plan instead of automatically wanting to label or medicate "troubled" students.

Excellent book. As a Grandparent of a child who struggles in adapting in a mainstream school classroom, I am reading this which will help me to help him.

Great book for those who love or work with kids :)

Use the strategies in this book every day

A must read for educators, and administrators!!! It's time we made a REAL difference, and this is a

great starting point.

Received item quickly! Very Pleased!

Great!

a great book describing a wonderful and practical child-centered approach to helping students succeed.
