# The Canyon Encounter: The Adventures Of A Crazy, Self Taught Woodsman (Tales From The Timber Book 1)

## Synopsis

\*This is a 9500 word true life short story. Once I believed I knew all there was to know about the creatures who roamed the Pacific Northwest forests. After spending long stretches of time alone out in the timber, a few strange experiences started eroding that conviction. This story is about some of those events leading up to a solo hunting trip out in an Oregon wilderness area. My know-it-all perception shattered then after a mysterious encounter with an unknown creature deep in a canyon. The experience changed me forever. The timber holds mysteries Iâ™ve yet to solve.

## Customer Reviews

Read this in about 1/2hr...great book; exciting and if you were C.M....terrifying!!; I'm sure he has no doubts about Sasquatch..they just don't like hunters!

Short read but very interesting encounter!...enjoyed!Can't imagine how terrifying the ordeal must have been.Hope the lust for "The Hunt" is still there...Elk steak is just too good to be denied!

He never described just what Big foot looked like along with leaving long gaps of time completely empty. If asked would I suggest it be read? Yes.

Even though the book is short, it had me reading it all the way through to its entirety. Should be made into a movie. An excellent read for anybody who is a cryptozoologist enthusiast.

He had a creepy encounter. Unless you are a big Bigfoot fan.....

I thought he told the story as though I was there and I enjoyed every word. Thanks for the story. I could picture being there with him.

A good story, though I thought it could have been longer, or had more stories included in the book.

Interesting and believable. Thanks for sharing your back woods experience Chris. I'm not sure I would want to go back there.
