Customer Reviews

There are five books in this series and they don't have to be read in order. I recommend it though

because it was how it was written. I didn't read them in order myself though. This one is one of my favorites out of the series but I liked the series so much, I have all five and plan to keep them to reread them. Well written, good suspense and great romance. I loved it!

I love this family. They're warm and real, and they have the most dangerously exciting courtships with their sweethearts. I'm always impressed by how naturally the dialogue flows between characters and the way faith is a natural part of their lives. Ms. Sleeman is a master storyteller. Thank you, for a very entertaining evening.

It has been years since Jennie Buchanan walked out of Ethan Justice's life taking his heart with her. Jennie is getting ready to open a showing of her photographs to raise money for her charity Photos of Hope. Someone is determined that she not open her show and has threatened to kill Jennie. Ethan Justice and his siblings have been hired to protect Jennie. Having spent years trying to forget her, Ethan's family is worried that he will once again have his heart ripped out and they are not going to let that happen again. From the beginning Jennie tries to keep the walls up around her heart but is it time to let her guard down and allow people to care for her? As the threats on Jennie's life increase Ethan realizes that he is willing to do whatever it takes to protect her and that his heart never stopped caring for her. Will his love and skill be enough to keep Jennie safe and to show her what Christ's forgiveness is all about? This is the first in the Justice Agency books and as usual it seems for me I have read the series backwards! I read the 3rd one first, then read the 4th book and now have read this one. Thankfully each story can stand alone although having read the last two books I did know who Ethan would end up with. I really liked this story in that it has a lot of suspense, but it also has a great message of God's forgiveness along with our need to also forgive ourselves. The story was well developed and fast-paced and I never found myself ready to put the book up for the night. I read this during vacation so unfortunately I did have to put it up at times but was eager to pick it back up and get immersed in the story once more. In fact my husband had to do without my company for several miles of our drive today so I could finish! I'm looking forward to reading book 2 Dead Wrong soon.

This is the first book of Susan Sleeman's I have read, and am very pleased with it. Reading the description of the Justice Agency series reminded me of Dee Henderson's O'malley's (which I loved.) I am impressed with Ms. Sleeman's writing style and the premise of the book. Double Exposure is a well-written inspired suspense romance. It was a fast read, because the book was

hard to put down. The suspense was riveting. Ms. Sleeman weaves God's lessons to be learned by Ethan and Jennie perfectly throughout the book. Some of them are: pride, forgiving ourselves as God as already forgiven us, letting the past go, seeing how God can use bad things in our lives to later help others, trust, and realizing God loves us no matter our pasts. Ethan and Jennie are likable and realistic. I enjoyed the introduction to the other Justice siblings. I am sure they will have interesting stories. Ordering Kat's story now! Happy Reading!

After reading this book, and the bonus book at the end I am throughly happy I bought this book. Susan Sleeman has done a great job it writing a suspense and thrilling book, that I'm sure many if not all who read this book will enjoy. It keeps you guessing and you enjoy the characters journey through till the end. Love this new addition of Susan Sleeman's repitour, and can't wait for more books from her.

Susan Sleeman is one of my favorite authors'. I have read Double Exposure, Dead Wrong, and now High-Stakes Inheritance. All 3 books were so good! The action heats up quickly in this book, and I couldn't put this book down. Jennie is a photographer, and by mistake took pictures with drug lords in the back ground. The drug Lord and his helpers will do anything to destroy those pictures. Will her ex boyfriend be able to keep her save? I loved this book, and I hope you enjoy it too! I really enjoyed reading a Christian action packed thriller! I will be looking for more books by Susan Sleeman. Here is a sample from chapter 5 Sirens wound through the air. A shooting would bring every available officer in the area. Probable an ambulance wail mixed in, too. He ran back to Jenie. Her eyes were glassy with shock. One hand pressed firmly against Ashley's stomach, the other circling her own waist. "You okay?" He dropped down next to her, stowing his gun so he didn't draw fire from arriving officers who could mistake him for the intruder. "no," She answered, her voice not more than a whisper. Her glazed eyes coupled with her own admission weren't good signs. He hoped the medics hurried. She looked as if she might pass out.

I liked the suspense part of the story. It was great and a good ending. I really like romance and suspense stories combined. My favorites are always when the couple in the story has a history of a break up or misunderstanding. This one however had too much back and forth reasoning with the woman going over the same things in her mind over why she broke up with the hero of the story. I thought the reason for her breakup was kind of stupid until I found out a little more what was behind her reasoning. Like I've said in other reviews though, writers can't write about perfect people all the

time. There are people like her with low self esteem that think in their minds that no one could ever love them. I really liked Ethan. I did like the method the author used to finally pull Jeannie toward the right direction. She was the type of person that is hard to like though. I don't know how Ethan fell in love with her in the first place but that shows what a great character he was.
