## Customer Reviews

If you are clueless on how to play Solitaire either using a deck of card or through your PC or mobile device, this game guide will show you how. It is the game guide that tells you what the Solitaire game is and how to play it.

It is not the game. it is a book and not worth your time. Maybe the way it was listed made me think it was the game but even as a book it was laid out poor and I had no idea what it was saying.
