## Customer Reviews

"Breuer's tough, brutalist designs were sculptural and expressive, and their ambition and scale has come back into fashion. This is a serious study." [Financial Times](#)"It is truly a must-own for all architectural enthusiasts."

[Interview Online](#)"In a beautiful new tome from Phaidon, architect Robert McCarter gives us the most complete monograph of the pioneering modernist."

[Fast Company's Co.Design](#)"An impressive and weighty new monograph by Robert McCarter... Should realign Breuer's position in the canon of modern masters... Covers 100 buildings and 24 furniture designs, and is a joy to spend time over, with its beautiful array of photographs, and McCarter's exhaustive - but never exhausting - text on the designs... It is time to rightfully rank Breuer alongside Mies, Wright and Le Corbusier, and this publication should aid that cause."

[The Irish Times](#)"This impressive and weighty new monograph by Robert McCarter should go some way to realigning Breuer's position in the canon of modern masters." [TLS \(Times Literary Supplement\)](#)"Meaty, well-illustrated... [Breuer] knew how to wield the expressive powers of

modern materials." [The Observer](#), [The New Review](#)

Weighing in at a hefty six pounds, this well-produced and researched text exhaustively covers the career of Breuer from many viewpoints and contains hundreds of photographs and illustrations. This is a seminal work. I would think that even if you have other material on Breuer this would contain new viewpoints and is a worthwhile addition to an existing library of De Stijl, Bauhaus, and International Style works--or a fantastic starting point if it's your first book on Breuer.

Excellent book!

I will be brutally honest: this is a 'must read' for any design or architecture student, scholar or enthusiast. 6 stars!

A scholarly tome! Gorgeous photography throughout.
