Synopsis

Public awareness regarding the life-threatening nature and intense traumatic impact of domestic violence has substantially increased in the past decade. At the same time, dramatic changes have taken place regarding criminal justice and social work policies and practices applied to domestic violence intervention. And while the prevalence of domestic violence has declined slightly, national estimates still indicate that every year, approximately eight million women are abused, battered, stalked, or killed by their husbands, boyfriends, and other intimate partners. Featuring cutting-edge research and expert intervention strategies, the *Handbook of Domestic Violence Intervention Strategies: Policies, Programs, and Legal Remedies* is designed to prepare professionals to swiftly and compassionately meet the multiple needs of women and children who have suffered from domestic violence. This original and indispensable volume focuses on the numerous advances in legal remedies, program developments, treatment protocols, and multidisciplinary perspectives. It is a comprehensive guide to the latest research, public policies, and legal and criminal justice responses, covering federal and state legislation as well as trends in police and court responses to domestic violence. This is the first book to include court-based technology developments and new research related to the duration and intensity of woman battering.
