Director, Section of Endovascular Neurosurgery, Barrow Neurological Associates, Phoenix, AZ

Dr. Gonzalez and his team have published a comprehensive textbook that every neuro-endovascular fellow should read during fellowship and should refer to during the course of their career. The chapters are well-written by leaders in the field. Moreover, both photographs and illustrations provide excellent examples and descriptions of relevant neurovascular pathologies and the latest endovascular techniques to treat them. Simply a must-have.

This is a fantastic book that should be on the shelf of any vascular inclined trainee regardless of their speciality. The practical "tricks" are the true gems of this classic. I congratulate the authors on a very timely and useful publication.
