Customer Reviews

I've been doing projects with videos and editing software for a long time. The tips in this book took me years to discover on my own.

Good book, Good price

What's the term, "meh?" That's how I'd summarize this booklet. There is a useful explanation of some of GoPro's settings, but it's not all that extensive. In all fairness, the title does say "6 Simple Steps," so keep that in mind.
