On Becoming Preschool Wise: Optimizing Educational Outcomes What Preschoolers Need To Learn

Synopsis

Who can understand the mind of a preschooler? A 26 year Pediatrician Dr. Robert Bucknam, M.D. and co-author Gary Ezzo, M.A. believe that YOU CAN! Above all else, a preschooler is a learner. His amazing powers of reasoning and discrimination are awakened through a world of play and imagination. Through home relationships, he learns about love, trust, comfort, and security; through friends he learns to measure himself against a world of peers; and through unconditional love, a child establishes his own unique selfhood. The growth period between ages three and five years is all about learning, and *On Becoming Preschoolwise* is all about helping parents create the right opportunities and best environment to optimize their child's learning potential. From teaching about the importance of play to learning how to prepare a preschooler for the first day of school, from organizing your child's week to understanding childhood fears and calming parental anxiety, sound advice and practical application await the reader. You will find this resource as practical as it is informative, curative as much as it is encouraging. Come join 26 year Pediatrician Dr. Robert Bucknam, M.D. and co-author Gary Ezzo, M.A. and the community of 6 million homes in all 50 states and around the world that are finding peace and success with their children in the *On Becoming* best selling series! My nephew has 4 kids, the oldest of which is in his last year of school. My nephew grew up in an inconsistent, undisciplined environment, and as a result, he never finished assignments, and therefore, never finished school. After he got married and had a child, he woke up one morning with an urgent sobering thought. What an awesome and important job he had before him! He actually became a changed person at that moment and all of a sudden started devouring every book he could get hold of. He and his wife have used the techniques from Ezzo "On Becoming" books from birth, and the result is, there has never been a nicer set of kids. When they were little (3-8 ish), they visited for a week, and in all that time, I never saw a tear or heard a squabble, or even a discouraging word from or between the kids. They were very loving with their parents and had fun with them. I was praising them with their mother when they were getting ready to go and she said quietly to me "actually, there were 2 spankings upstairs during our stay". I couldn't imagine it. I have been giving Ezzo books for gifts since.

Good book.

Still reading but very inspiring! Great ideas and techniques, already putting them into play! Can't wait to finish it and see some more improvements!! :)

This is a great book full of ideas on how to keep preschoolers occupied and save our sanity as parents.

If you are looking for balance and consistency that is the book for your preschool :) my husband and I have read all those books from that series. Thanks to Ezzo family!

Very insightful

I bought this series for my Daughter-in-Law. She had asked for them. She was very pleased to receive them. The books are good quality.

I used to be a preschool teacher, and now that i'm at home with my preschool-aged daughter, sometimes i feel like i'm not giving her what she needs. I loved reading this book and seeing how I can fulfil her needs at home and also prepare her for the future.
