Cesar's Rules: Your Way To Train A Well-Behaved Dog

Synopsis

The training book you've been waiting for from the bestselling author and star of National Geographic Channel's *Dog Whisperer*! Your dog just doesn't seem to listen. You've been through obedience training, but he still can't seem to master the most basic commands. And nothing you do seems to prevent him from misbehaving.

"Clients usually come to me when their dogs are ruining their lives, not when they won't sit," says Cesar. "But everywhere I go, people are telling me they are confused about the wide variety of training options and theories out there, and they feel paralyzed because they don't know which to choose. Now, in his usual straightforward, confident manner, Cesar takes on the topic of training for the first time, by explaining the importance of balance as the foundation for a healthy relationship between you and your dog. In order to provide a variety of training options, he calls upon some of the foremost experts in the field to offer their advice so that you can find the perfect approach that works for you and your dog through a variety of methods. Filled with practical advice, anecdotes, tips, and trouble-shooting techniques from Cesar and his colleagues, this is the ultimate guide to a well-behaved and well-balanced dog—from a new puppy to an old dog who can still learn new tricks. The Only Training Book You'll Ever Need! #1 New York Times bestselling author Cesar Millan shows you how to communicate well with your dog and shares the most effective and humane methods for teaching your dog how to be a happy, well-behaved member of your household. In *Cesar's Rules*, he'll address:

- * The most popular training techniques, including positive reinforcement and using a clicker
- * Ways to teach basic obedience commands such as sit, stay, and come
- * The importance of balance, and why a well-trained dog does not necessarily mean a balanced one
- * How to use your dog's own natural inclinations to create better behavior

The methods and theories from a variety of renowned trainers, including Bob Bailey, Ian Dunbar, Joel Silverman, Martin Deeley, and Mark Harden

- * Encouraging and honoring your dog's instincts
- * And much more . . .

From the Hardcover edition.

“Millan’s wizardlike facility with dogs—the calm he brings to them, the confident way he handles them—is

mind-blowing.”
—Newsweek
“[Millan] arrives amid canine chaos and leaves behind peace.”
—Malcolm Gladwell, The New Yorker
From the Hardcover edition.

Founder of the Dog Psychology Center in Los Angeles, CESAR MILLAN is the #1 New York Times bestselling author of *Cesar’s Way*, *Be the Pack Leader*, *A Member of the Family*, and *How to Raise the Perfect Dog*. He is the star of *Dog Whisperer with Cesar Millan*, National Geographic Channel’s top-rated show. In addition to his educational seminars and work with unstable dogs, Cesar has founded the Millan Foundation, a nonprofit organization dedicated to helping shelters and rescue groups. MELISSA JO PELTIER, an executive producer and writer of *Dog Whisperer with Cesar Millan*, has been honored for her film and television writing and directing with an Emmy, a Peabody, and more than fifty other awards. She lives in Nyack, New York, with her husband, writer-director John Gray, and stepdaughter, Caitlin.
From the Hardcover edition.

This guy makes SO much sense. I love that he teaches the underlying principle that enables us to help our dogs with such a broad spectrum of problems. Reading this and watching his shows, together comprise a wonderful training package. Cesar is SO obviously a sensitive loving wonderful man. Those who hatefully denigrated him are jealous cruel zealots.

Cesar is a phenomenal dog trainer, but more importantly he is relationship oriented to dogs and people. Don’t expect your typical do-this and then-that kind of dog training book (which btw, have never been successful for me). I can relate to him better than I can those other types of trainers, for this very reason. He is developing a bond first, the respect that then follows naturally is where the

discipline and 'training' flow from. Then if there are any 'tricks' or specific techniques(read 'tools')needed, he brings them into play as necessary. It never did make sense to me that to train my dog I would have to purchase expensive training tools in order to get the job done; I did and 'they' did nothing to enhance my efforts. From Cesar I have learned why my pets from childhood on did not obey me or take direction. Worse,they were confused by me. I see that as I have developed as a person of consistence, calm confidence and self-respect, first; my animal family members have quite naturally responded with very little 'training' needed. Expect to hear him repeat this message; most people are slow to grasp this becasue it is about them, not the dog. Not to deviate, but try training a horse before you understand and possess a strong, calm sense of leadership. Buy the book and his other materials and watch him work with his clients; if you are open to it, you will not only have better behaved companion dog, but you will be a more confident and balanced human.

I love Millan's philosophies and practices with dog training and behavior issues. I have a very well behaved dog who receives compliments every where we go. He is great off leash, in company of other and suspicious dogs... I owe it all to Millan. I started to read his books prior to adopting my dog over a month ago, and my dog is awesome due to my research and interaction based on Millan's philosophies.

So theres many professional animal/dog trainers out there that want to talk there smack on Cesars methods every chance they get. You may have seen youtube comments, comments etc. Well in this book...many well known animal behaviorists, animal trainers, dog trainers, people trainers you name it all have their say about their theories. Although all these people might disagree with each other they all dont stick to one way of doing things. From this book you can learn how to teach your dog basic obedience, using a clicker, and reinforcement methods. Sometimes clickers dont do the job so they go over that too. Cesar to me is awesome he has definitely made a positive impact out there. As he says, hire a pro if your having issues, dont copy what he does, you could be making it worse. Most of all you can learn about what NOT to do. This book will definitely give you a general understanding about dog training. Some trainers dont do rehabilitation, some dont do obedience training, some dont train to do tricks, hunt etc so u get a well rounded view of things you can do

Very insightful! A little wordy. Cesar uses a lot of stories and also shares some of his personal life which does help some of the lessons stick in. You just have to get through the first couple of chapters for you to understand what relevance this story has to dog training and dog raising.Also, a

pretty easy read. I am not a heavy reader and I read within a week. Overall a very useful and practical book and I would recommend it to anyone new to dogs (like myself) or someone that needs help establishing boundaries with a current dog.

Great book. I wish I read it a year ago. I have a one year old golden retriever, hyperactive and very tricky. We went to dog school for 5 months, he learned sit, lay, wait, stop, etc. - excellent. I took him daily for long walks, but still this was simply not enough. I read first Cesar's way and now this book. Finally I start to understand something about dog psychology. I started to correct the dogs, and my behaviour based on this book and I noticed immediately a change. My dog is much more relaxed, calm and finally I feel we are a team and I am the team leader. I recommend this book to every dog owner. Read it and watch some Cesar's videos. You will be surprised what a change you can achieve with little effort. Cool!

Great book! You have to read this to understand dog Psychology before you even think of raising a puppy. This is not a "how to train your dog to do stupid pet tricks" kind of book. It will guide you to raising a very well mannered dog that is a pleasure to live with.

Book arrived in very good quality and was as advertised
