Had to buy this for a class for my Masters in Public Health program. Here's the skinny: School bookstore cost: \$125. Used, from , via 3rd party selling it as a former library book, same edition, almost new: \$5. Barely used the book, and have no idea where it is today. I think a friend borrowed it for the same class. Any questions? Didn't think so...

Book condition is great, was New and all. But buy it only if u really need it for your class. Other than that, you can find de information in it on the internet really...

This book was spotless, even cleaner than advertised. Cost 1/5 of what I would have paid at the college bookstore. A great way to save money in these tough times. The vendor shipped promptly. I am very pleased!
