Gatekeepers

Synopsis

It's an average Tuesday night in Dallas when Joshua Mills learns that his estranged father is in deep trouble for a theft committed years ago. When an other-worldly bounty hunter comes to exact vengeance for the stolen item, Joshua is caught in the crossfire and put on trial for murder. Though ultimately able to beat the murder charge, Joshua's life is left in tatters after the attack, and more than one special enforcement group is interested in Joshua. Creatures from across the seven realms are after Joshua and information about the strange engine stolen by his father decades earlier. Joshua will need to decide whether to help protect Earth from the forces that would enter through inter-dimensional gates from the other realms, or to live a life devoid of memories of his family and home in order to remain safe.

Customer Reviews

Fast paced, clear and precise imagery. I was caught up in the very first page. I recommend this book highly. I think it has something for everyone. I could not put this down till I was done and now I

am wanting sequels, to keep the story line going.

I was hooked by the first page. There are relationship issues, there is conflict, intrigue and fast paced action and very creative other worldness. I feel that this is something that will appeal to readers across the board. Well done.
