Customer Reviews

This is by far the most comprehensive collection I know of and I have a lot of speeches. My other collections are a compositions of 5 minute soundbites totaling around 40 minutes while this

collection is the real deal with speeches in their entirety. And that is no small accomplishment for some of these speeches. Some of his most popular speeches are only known in small excerpts but once a listens hear the whole speech, it totally boogles the mind. Priceless and Timeless. No other collection comes close.

one of the best purchases ive made

The sound quality was better than expected. The first one is a little hard to hear, but after that, excellent. The messages are beyond review. Very important messages of the time but still appropriate for today. In listening to the cds I realized a lot has changed since Dr. King started his public speaking. Sadly, many things still have not changed or still have a very long wat to go. Listen, think, and enjoy!

This was the best purchase I have made in a long time. The price was affordable and the content is life-changing.

Just what I wanted speeches from a man whom I admire along with introductions by his colleagues who set the atmosphere prior to the speeches. Excellent quality CDs.

Beautiful coffee table book. I like to read several of these wonderful quotations when grandchildren come over. Immortal words for our next generation.

I brought this as a birthday present. It was more than they expected. They are more than pleased with it.
