I absolutely love, love, love this book. This book is perfect for finding hidden treasures. They may not be of pirates treasures of gold and diamonds, but just as grand. If you and your family enjoy searching for pottery pieces, indian arrow heads, old antique bottles, hidden caves this book is for you. Originally written in 1986, directions, roads, street names have been changed a lot. It helps if you are familiar with the area already, though. The maps are kind of generic, it looks like they were written in a hurry on the back of a napkin, but part of the fun is the hunt. Despite all this this, it's still a great read. Over all I highly recommend this book.

Not always, but this new adds to the excitement of exploring odd places in AZ. We have enjoyed several new places.

loved this book so much I bought a few copies to give as gifts and i am very happy with it

What a great book. If you ever want to go out in the back country this will get you there

Looks like the book has some cool places to visit but I don't plan on driving 3-4 hours to see if I can find them since all he included for directions is his hand drawn maps. They look like a pirates kid drew them. I even google the name of the places and I don't find to much info. Would it of been so hard to add some GPS coordinates? It is 2014.

I just received the 1986 version of this book from a friend and I've been having a blast searching google maps for how to find these places 20 + years later (housing developments and street improvements have altered the maps significantly for some areas). The maps in the original book are hand drawn and often don't include street names, just basic directions like make the first right after the wash and drive 2.5 miles lol That's my kind of adventure! Now that I've got some gaps filled in I'll be sure to keep this book in the car for the next time the exploration bug hits! I can't wait!! docked it 1 star just cuz the maps are so crude in the original, but computers weren't too common then so ya can't be too hard on the guy ;-)

For anyone who is tired of the same old "tourist traps", this book is for you. There are a wide variety of treasures to be found in Arizona and Rick Harris has drawn maps for many of them. My friends and I have spent many days exploring the seldom seen sides of Arizona and have seen many things that most travelers will never dream of. Whether it's caves, mines or Indian Ruins; Ghost towns, quartz crystals or cliff dwellings, this is the book for you. I carry this book with me whenever I'm in Arizona because you never know when the fever for a good adventure will hit.

Pleased with this book.
