# Reflux: Final Free: Stop Heartburn And Acid In Less Than A Week With These 3(+1) Natural Methods And A Tasty Diet

## Synopsis

Acid Reflux, GERD, Heartburn, Reflux\*\*Are you looking for the ultimate solution?\*\*\*Do you wanna stop the reflux and feel free to talk with people?" You are going to discover how I succeeded in 6 days with these 3 (+1) simple methods. No medicines that will increase your acidity level. No expensive solutions. No diet that will increase your appetite and give you worse heartburn. I am Kirsten and I had acid reflux until I was 27 and I really wanted to spend my time with friends, colleagues and more than that, with my partner... I always woke up with a strong heartburn and tremendous reflux, like I could not catch my breath. Everything I ate and drank literally came back from my stomach. When I laid down, I started feeling a burning pain around my lower chest and suddenly my mouth got such a bad smell. I was avoiding all social interaction as much as I could. I almost never went out with my friends and colleagues, not even for a beer... I was really afraid of this, all the time. I was afraid to be the only one could not talk normally with people. I was afraid I could not have a normal relationship and stay close to my partner. I was feeling really vulnerable and more than that, I was scared someone could notice... I went through all of this... I made hundreds of mistakes trying to fix it, until I used these 3 natural methods (+1 bonus!!) and a specific diet that changed everything... I fixed it in 6 days and now... I wake up feeling refreshed and energetic. No more heartburn after eating or in the morning. I can approach my partner without fear of destroying nice moments between us. I stopped being afraid of getting close to people in every day life. I feel more confident and I can freely talk with my colleagues face to face or in teams. "The point is I do not want that you waste your time like I did, so I created this book... Just imagine how your life will change when you will feel free to talk and be close to people." This is what happened to me, it can happen to you as well... Was kinda disappointed. Thought book would contain more recipes and information.

i am one of the unfortunate people who has severe reflux. Most days I would have a constant feeling of burning in my chest and throat, could only sleep propped up, and sometimes would have to try and sleep sitting up. Ugh! I am working with a doctor to try and figure out why this problem is so bad and to see what can be done, if anything, to fix it. My quality of life has been so bad that I started researching what kind of foods I can eat I am one of the unfortunate people who has severe reflux. Most days I would have a constant feeling of burning in my chest and throat, could only sleep propped up, and sometimes would have to try and sleep sitting up. Ugh! I am working with a doctor to try and figure out why this problem is so bad and to see what can be done, if anything, to fix it. My quality of life has been so bad that I started researching what kind of foods I can eat and what foods I shouldn't eat. That is how I came upon this book. It sounded good and figured I had nothing to lose, so I purchased it. Best decision I could have made! This book changed the quality of my life. I started the meal plan and within 3 days was able to cut back on acid blockers. After two weeks on this meal plan, I was able to eat, in small doses, some foods that are known reflux triggers for me. For the most part, now that I'm feeling so much better, I am finding that I do not even want to eat the things that make me feel so sick. I will continue to work with my doctor to try and figure out why I have such bad reflux, but at least now I feel and sleep much better and can make smart decisions about what to put in my mouth. I am so happy I found this book! Thank you!!

This is great, because it's a combo cookbook and science book. It gives the ins and outs of reflux

and the science behind it. It also give a lot of good recipes and foods that are okay to eat. It is not a "diet" book. Even though the recipes are low-fat and low-acid, it repeatedly tells you that those foods are okay some of the time in moderate quantities, especially once you get your reflux under control. I would recommend the book to anyone who has had difficulty finding relief from GERD and silent reflux.

Excellent book. My husband was suffering from acid reflux for nearly a year. He went through several types of treatment, which provided temporary relief. And then we tried natural ways and dieting, and this was one of the cookbooks we bought, and it worked amazing! He hasn't had a case of reflux for more that a week, and we are so happy and hope he will stay reflux-free for much longer!
