Delicious In Dungeon, Vol. 2

Synopsis

With the possibility of starvation as a constant companion, Laios's party continues advancing deeper into the dungeon. The adventurers have made it to the third floor, but only rotting zombies, ghastly spirits, living paintings, and golems await them--all of which are absolutely inedible. The party has come this far by adapting and learning how to live off the dubious bounties of the dungeon. But how will they manage when even the meanest monster won't make a decent meal?

For more details , check out this manga reviews on my youtube channel , daywithoutgames .First , I bought the Kindle version , and for some ridiculous reasons , the back cover page is missing .In my attached photo , you can see the last page , page 195 , of the Kindle version , it shows the front cover again instead of the back cover . Below is the Japanese cover . I paid full amount of money so why didnt I get the full volume ?Second , I want to say that this is a Dark Comedy manga , it contains scenes of humans kill monsters and monsters kill humans . So I think this manga is only suitable for readers who are 15 years old and above .List of monsters , in order of their appearances in this volumes :SPOILERS ALERT .Walking Skeleton .Ghoul / Zombie . Their rotten meat must be very tasty , lol .Wraith / Ghost / Spirit . I only heard about drinking spirits , have you ever heard about eating "spirits" ? Lol . In this volume , they even make some comparisons between spirits

(alcoholic beverages) and spirits (ghosts) .Golem . Its body is 99% dirt , so how will they eat it ?Orc . Will they cross the line here , eating Orc , a type of demi-human ? I wonder if Orc meat taste like Pork meat , lol . Or will the Orcs "eat" the pretty Elf girl , like in some "special" manga and anime ?Kobold . A type of humanoid dogs .Treasure Insect . Among the insects , there is a specie called "Pearl Necklace" , lol .Living Picture . In Volume 1 , they ate Living Armors , so this time , how will they eat Living Pictures ?Mimic . In the Dungeons & Dragons game, the mimic is portrayed as being able to change its shape to disguise its body as an inanimate object, commonly a chest. In this manga , Mimic is a type of hermit crab hiding in chests .Kelpie = Kelp + Pie , even its name sounds tasty , lol . Kelpie is a type of amphibious creature , it looks like a horse with fish's tail .Some dish names are also very funny , my favorite is "Freshly Stolen Vegetables , Accompanied by Plundered Bread" , next is "Special Interfaith Holy Water" .

Who cooking up monsters could look so tasty. Volume 2 of Delicious in Dungeon continues the escapades of our group of adventurers. I wasn't sure if the series idea would be good for a one off or a series, but now I can safely say this is one of the best new series of the year. I can't wait to see what the next volume has in store.It's very interesting to see how it handles different classic fantasy monsters and show creative ways to cook them. All the while paying homage to it's table top RPG roots. I mean what it does with Golems this volume is very creative. And in all honesty it makes me want to experiment with cooking.Senshi and Marcille are great once again, with their often clashing viewpoints. This volume definitely shines the spotlight on them and it's entertaining to say the least. If your a fan of Pen and Paper RPGs or love cooking manga, I can't recommend the series enough.
