I'll Be The One

Synopsis

Rachel Wheaton
The senior Economics project is supposed to teach us about real life. Budgeting. Social classes. Careers. I was supposed to plan it all out with my school husband. I didn't plan on actually falling in love with him, too. But sometimes real life doesn't go according to plans. Sometimes you have to make hard decisions and sacrifices for the person you love. That's what marriage is about, right?
James Tennyson
I've always known little things before they happen. Nothing major, like lottery numbers, but it's been pretty useful for things like playing football and dodging clingy girls. I've never been able to see my future. I didn't think much about it, to be honest. Until second period, when she walked through the door. Falling in love with her unlocked something inside me. Those little things I know? Now they're big things. Life-saving things. So who do I save? And at what cost? I made a vow to her.

Customer Reviews

This was such a well written and intriguing book. From the very first page to the last I felt every intensity this book offered. This story is about a young girl and boy, Rachel and James who meet in Economics class and are assigned to a fake marriage. I just think these two are so cute. Their

young love is beautiful. I loved what these two brought out of one another and I loved their sweet young journey. This book is exactly what I love in a YA/NA book, but yet the subject and the plot twist were quite unique and gave this book that something more, and many parts took me by surprise. You the reader will definitely fall in love with so many of these amazing, funny, and charming characters. Avery, Fletcher (which BTW. I would love to read a book about them)...Grams...The list is endless. This is a book I would recommend to anyone! This is a #MustReadPS.. I know this is a shorter review...But there are so many little surprises, I would not dare ruin any of them for you. JUST READ THIS BOOK!

---"Don't worry about falling for me, Ray. I'll spend the rest of my life catching you." I pull her toward me and kiss her forehead. This was not what I expected...at all! I was so into the story, loving all the little first love stuff and then BAM! I'm hit right in the feels! I don't even know how to write this review. I'm in shock. I'm happy, I'm sad, I'm pissed, I had butterflies and I had tears. This book was so sweet, so tender, so much more! All the feels! James is the sweetest and I just loved him! He's like the perfect high school crush! He's cute, charming, funny and has a special ability to see some things before they happen. Nothing major, just sometimes little things like what someone is wearing before he meets them, things like that. He moved around a lot, living basically a nomad life with his hippie mom. Never had a girlfriend but something just happened to him the day he met Rachel. He knew he would love her before he even met her.---I slide the Ring Pop on Rachel's finger and make an effort to not jerk my hand back. Sparks didn't actually fly, but I wasn't expecting her skin to feel so soft. So good. I've never been pretend married before, but I already know I can never give another girl a ring again. I'm a senior in high school and I'm ruined for life. I want to get married for real and have her babies. I mean, make her have my babies. S***, who am I kidding? I'd have her babies if she asked me too. See how cute he is!?! Lol. And Rachel...she's sweet, funny and loves to run. She's never had a boyfriend. Her dad wouldn't let her, he wanted her to focus on track and go to the Olympics and go to college, he didn't want a boy distracted her. But when the economics teacher put them together on a project, she couldn't help but fall for his boyish charm. Especially now since he is her school husband. Lol!---His muscles are as beautiful as his tattoo, and I force my hand away from his arm. Jesus, now I really want to know what his abs looks like. And feel like. And taste like. Taste like? Ugh, I'm turning into a teenage man-eater right before my own eyes. I can just picture it now. Hi Rachel, what'd you do at school today? Oh, not much. Took a quiz and tuned into a cafeteria floozy at lunch. It's the cute, adorable things like this that made me fall in love with them! And Rachel's best

friend Avery is a great secondary character. I loved her too! And Gran...Gran I loved a lot! She's feisty and loves to bake pies, she's what you want in a grandmother! I'm still processing my feelings about this book and probably will for awhile. I still can't get over the last few chapters. I may never get over that. The plot and how all the little things came together, I have to admit was brilliant. But I did love the story and it did make you feel all the feels which is what I love about reading!~Michelle

This was a debut?!?! Say what?!?! Bravo Hazel James Bravo!!! I wish I had a James when I was in High School, I'm pretty sure every girl would agree with me. I loved the EPIC love story between James & Rachel, and even though "I'll be the one" made me cry, I ended up smiling

Wow!!! I just finished this amazing book, and I LOVED, LOVED, LOVED it. Rachel and James had such a magical connection, one that we normal people can only hope to achieve. James is at the top of my book boyfriends. I fell in love with the main characters and enjoyed the side characters as well. Hazel definitely has a talent for creating real, believable characters that are easy to love and relate to. I wish I had an Avery in my life. I loved the sense of humor that the characters had and laughed throughout the book, and also shed a lot of tears. I love when a book sucks you in and doesn't let you go until you finish the last page. This book does that. You will not want to put James down lol. Read this book. You will not regret it.

This was a 3.5 book for me, it was cute. I think I am just not into this much YA, too much High school. I enjoyed the characters I thought James was amazing, but then Rachel I could give or take, definitely not my favorite female heroine. That ending I wish had turned out different, but that's life. Very well written just not my cup of tea.

This story is incredible finding your first love. Getting to know each. Finding yourself for who you are rather than who you are wanted to be. Deciding on college, career, what direction to go in life. Coming of age story, but soooooo much more. I can almost guarantee you can NOT finish this story without tissues at some point in the story.

I loved this book. Oddly I find it difficult to find a book where I call it a "page turner," but once I picked this book up and finished the first couple of chapters I was hooked and didn't want to put it down. I wanted to know what was going to happen next with James and Rachel and where their

story would go. The characters are completely charming and I loved the slight real humor. This book has me in tears. My only "complaint" is when the book was over, I wanted more. I look forward to what's next for Hazel James, it's a beautifully written and smooth read.

I loved this book, I went in blind because I completely trust the author and I'm glad I did. I was kind of spoiled for the end which means I wasn't as emotional as I think I would be. I love the characters and love the fact that the dramas weren't childish. I loved Gran and this book wouldn't be the same without her. I loved Rachel who was a perfect girl character, not superficial and pretty interesting. And James, he's my favorite!
