Great help!

Didn't have the stuffed Steiff animals in the book for pricing. Still a nice book!

This book does not cover all the Steiff animals, I was disappointed in it as far as that goes. It mainly focuses on the Teddy Bears with some photos and mention of other animals, but again not all of

them by any means.

I love how this book is set up. It helped me alot !! Am new to the steiff's and this book has helped me with the true facts I take it with me ThanksJudene

This book has helped me in identifying inherited Steiff animals. The book is easy to use and full of good information.

Good purchase

There's lots of non-rare items missing from this book (all the one's I'm looking at).

Unlike some of the other reviews on this book, I am rating it 5 stars. It DOES have many of the older Steiff with their values. If the book was well read from cover to cover it's easily apparent that alongside each of the color pictures is a very detailed description followed by the item's value. The teddy bears range from 1904-1979, so there are many of the old ones included. The Steiff animals go back to 1890-1980. Then... in the very back of the book is a separate Price Guide just for museum replicas and special and limited editions dating 1980-2001. Hands down, this is a very very informative, comprehensive, and well researched book.
