Loved it. Really. Because I am sick and tired of listening to women talk about their perfect trips to Disney, their perfect children and their perfect homes. Finally, a dose of reality, albeit in a hilariously snarky and over-sharing way. Get a box of tissues, because you will laugh until you cry. Do read a few pages to your husband, because he will laugh too. Don’t read any of it to your 11-year-old daughter because she will giggle herself silly. And then she’ll have ammunition. It’s witty and funny and the best dose of medicine for uptight, type A mothers, slacker moms and all moms in between.

I bought this book because one of my favorite bloggers, Insane in the Mom Brain, was featured. I read the entire book in a day! So funny and I found myself nodding my head often..it’s like these

story tellers knew me! I laughed loudly many times and the family wanted to know what my problem was.. I told them you had to be a mother to understand. Buy it, enjoy it, then have a strong drink and celebrate being a mom!

This is a great read. These bloggers are hilarious, and I love that they all came together to create this little gem. I follow both Rach Riot and Patty on FB, and I love them even more after reading this book. They are true geniuses!!! I get so bogged down by all of the sanctimoms out there: don't FF or your kid will end up fat, sick, or stupid; don't buy a crotch danger or your baby's hips are doomed; if you don't co sleep you don't love your kid; if you don't have the perfect vegan diet you are poisoning your child; if you circumcise your son you are rendering him an amputee... Those are just a few of the things I read on the net on a daily basis. It is nice to read a book written by moms who just enjoy being moms, and who parent with a sense of humor. It was a much needed breath of fresh air!!! I love that they recognize we are not going to achieve perfection as moms; that we just do the best we can, and sometimes we just need to laugh. I would recommend this book to anyone who has been attacked or criticized by the sanctimom brigade; this book will make you enjoy being a mom again.

I wish someone wrote this when I had young children. It would have made life a lot easier to know we were all going through the same tough times. And it brings back so many memories. Keep writing! It doesn't ever get easy but if you can find the humor in life it helps a lot. I loved every page. Looking forward to the second edition already.

Compiled by some of the funniest and most popular bloggers on the web, I Just Want To Pee Alone is a must read for all moms. From birth stories to parenting snafus and judgemental priests to toddlers who spill our secrets, this book has something for everyone. These moms celebrate motherhood in the way it was meant to be celebrated - with candor and humor. They form a sisterhood with the reader, because really, haven't we all had a child announce our bowel movements a little too loudly? Or felt judged by someone who couldn't possibly understand? And don't we all have our own hilarious story about our child's birth? Read this book, and I promise you will feel so normally abnormal, just like the rest of us.

I actually heard about this book in one of my groups on facebook. And when I saw the title I knew I had to go and see the hype. As I was looking about on who all the authors were I knew at least two

of the blogs The divine Secrets of a Domestic Diva and Rants From Mommyland. I knew that them two automatically had to be funny. So I went ahead bought the book and dove right into it. From the beginning I literally was laughing so hard that I had to stop reading. I would repeat the story to my husband and he would just be like oh okay. I found a majority of the stories hilarious, I could relate to some of them in one way or another. Now there were a few of the stories being told that I just was like umm what? I didn't get entertained, I felt that maybe the book could have done without a few. I think in total it was like 3 or 4 that I didn't enjoy. But hey to each their own. I really liked where it was said that it takes a village to raise a child especially with humor. And I have learned as a mother that it does and you have to have humor with raising children or you will go crazy and want to curl up and cry. If you need a short pick me up a laugh from other moms. Then I suggest you get this book. I will be recommending this book to a lot of my mother friends.
