I purchased this piano book to teach my 8 year old piano student. It is very well written and a great book for beginners! Lots of fun tunes to play!

Bought as a birthday present for a student. Kids ALWAYS like learning songs they know. Has optional teacher duets. Layout is a little confusing at first, but that's only because of the duet format. I realize that you can't pick all the Disney songs, but I wish there were a little more or different ones in the book. I'm sure they're out there though! I'll find when the time comes

The PERFECT book for little ones to play songs! It is very basic/early piano playing pieces. My kids (even my more advanced players) like this book because they can play a song "easily" lol

This was a present for a beginner piano student. She loved the songs included in the book, and even though she has only had a handful of lessons, she is able to work on the book.

My 5 year old son found these songs a bit difficult. Weird fingering positions. Songs are fun but some are from older Disney movies that he doesn't know.

I thought it will have most popular songs of Disney but it doesn't.

as expected
