Customer Reviews

David Winick is considered one of the premier builders of custom Airstream home trailers in the United States.

It has a nice collection of photos from Airstream's files of some of their best products, plus photos and descriptions of the author's work. The custom renovation work shown is very practical for a travel trailer. The photos of the renovated trailers vary in quality and are sometimes disturbingly fuzzy or perspective-distorted. For inspiration, it's definitely worth having this book if you're going to do your own renovation, as I am, but don't expect to see in this book custom-yacht level of quality photos or work.

Most amazing fabrications to a classic airstream I've ever seen. Beautiful in every way especially if you are lucky enough to have one or 2 in the book

I was under the impression this would be a collection of different refurbished airstreams from lots of different designers and DIYers. It's mostly a portfolio for one guy and features about 5 trailers total. Pretty disappointing, but it may have been my fault for not reading the description thoroughly?

I really enjoyed this book on Airstreams. There are so many great photos of the interior of vintage Airstreams. It gives great ideas for renovation projects.

I was looking for more technical info to help with remodeling. This is more of a visual diary of his projects.

This book contains remakes of several vintage Airstreams. It would be very difficult for the average Airstream enthusiast to accomplish this type of remodel but that, in itself, is important to know. He also illustrates how these projects are a labor of love and how easy it is to fall for the vintage Airstreams. After purchasing this book, we intend to visit the Airstream factory for a tour.

It's a great book with beautiful pictures. A must for anyone interested in restoring old campers to their former glory. The recipient loved this book

I expected more interior pictures
