Combo: Loose Leaf Microbiology: A Systems Approach With Connect Access Card

Synopsis

Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, how they need it, so that your class time is more engaging and effective. *Microbiology: A Systems Approach* is a microbiology text for non-science/allied health majors with a body systems approach to the disease chapters. It is known for its engaging writing style, instructional art program and focus on active learning. Its unique organization in the disease chapters presents students with information in the way they would encounter it in a clinical setting, instead of separating disease information by taxonomy. The proven successful digital program including Connect, LearnSmart and SmartBook gives students access to one of the most effective and successful adaptive learning resources available on the market today.

Book Information

Loose Leaf

Publisher: McGraw-Hill Education; 4 edition (June 11, 2013)

Best Sellers Rank: #1,643,092 in Books (See Top 100 in Books) #72 in [Books > Medical Books > Basic Sciences > Virology](#) #1577 in [Books > Medical Books > Basic Sciences > Microbiology](#) #4848 in [Books > Textbooks > Science & Mathematics > Biology & Life Sciences > Biology](#)

Customer Reviews

Kelly Cowan just celebrated her 20th anniversary at Miami University Middletown, an open admissions campus in Ohio. She received her Ph.D. at the University of Louisville, and later worked at the University of Maryland and the University of Groningen in the Netherlands. She specializes in teaching microbiology to nonmajors, and especially to pre-nursing and allied health students. She herself fell in love with microbiology while pursuing an undergraduate degree in dental hygiene. She has made it her personal mission to hear nurses and dental hygienists she encounters in everyday situations exclaim, "I loved my microbiology class!"

great exactly as described

This used loose leaf is in good condition and I also thought it was very nice that it came in a binder already. Definitely a nice touch that makes any student's life easier!
