Rusch To Glory: Adventure, Risk & Triumph On The Path Less Traveled

Synopsis

Rebecca Rusch is one of the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from Chicago who abandoned a predictable life for one of adventure. In her new book *Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled*, Rusch weaves her fascinating life's story among the exotic locales and extreme conditions that forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete-- climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking--racking up world championships along the way. But while she might seem like just another superhuman playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams like Mark Burnett's Eco-Challenge series. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. *Rusch to Glory* is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.

Rusch to Glory tells the story of Rebecca Rusch, a 38-year-old whose sporting career has had more twists and turns than the singletrack upon which she currently dominates the sport of ultra-endurance mountain biking. In this autobiography written with Bicycling's Fit Chick, Selene Yeager, Rusch shares the story of her incredible career as an endurance athlete. Rock climbing, adventure racing, whitewater rafting, cross-country skiing—nothing has proven too tough for Rusch. Dubbed the Queen of Pain by one adventure sports publication, Rusch would rather think of herself as the Queen of Perseverance. She's not the strongest, the tallest or the fastest athlete out there, but she prides herself on never giving up.

Rusch to Glory is an easy read about the rise of Rebecca Rusch from an average Chicago kid to one of the best known female cyclists in the country and the determination it took to get there. Outside In a world that too often settles for mediocrity and conformity, Rebecca knows that the secret to success is being your best in all you do. And once you establish that baseline, you push through it. Mark Burnett, producer of Eco-Challenge and Survivor, from the foreword to Rusch to Glory "There is perhaps no one who defines a 'jack-of-all-trades' better than Rebecca Rusch. For more than 20 years, Rusch has explored her physical ability full of determination, without relent. Her drive as an ultra-endurance athlete and one of the most successful endurance mountain bikers in the world has brought her to success in just about every kind of adventure sport imaginable. Her compelling story of disappointment, heartbreak, and resilience is recounted in her book. VeloNews.com "Rusch to Glory is an easy read—just sit back and relax and follow Rusch through her various endeavors. She does all the suffering, so you don't have to. It may be the perfect book to give an aspiring young female athlete who is or will soon confront her own demons. When facing or about to face these kind of obstacles on the path to success, it's nice to know you're not alone and have a good example to follow.

CyclingNews.com "Reba's 50% hard core racer, 50% advocate, 50% adventure seeker, and 100% inspiration. That adds up to 250%, which is just about right for her. And if you don't already want to be just like her (I do), you will by the time you read the fun, funny, and always-down-to-earth story of her life. [Rusch to Glory] is a fantastic book, by a fantastic person. Fat Cyclist "Rebecca Rusch turned to the bike to cement her position as one of the best endurance athletes in the world. VeloNews "Rebecca is probably the greatest endurance mountain biker in history—male or female. Singletrack magazine "You name it, Rebecca

REBECCA RUSCH has run the gauntlet of endurance sports over her career as a professional athlete-- climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking--racking up accolades and world championships along the way. But while she might seem like just another pro playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Overpowering a lack of skill with her relentless drive, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. Rusch to Glory is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.

If you are looking for inspiration, pick up this book and read it! You will learn the life story of Rebecca Rusch, an incredible female athlete who tells her story of overcoming fear and obstacles to pursue a mission of adventure. What I love about her tone in the book is she never talks down to the reader. She doesn't present her athletic talent as some kind of God-given gift that completely separates her from the reader. Instead, she explains that much of her success comes down to plain old HARD WORK and perseverance, something that we can all apply in our lives. She then applies this hard working attitude to helping her community through both her work as a fire-fighter and as an event leader that brings significant economic benefit to her hometown. We all have something to learn from Rebecca's story. Don't miss this book!

Let's say there's something you've always wanted to do. It might be running 5km, going whitewater rafting or learning to ride a mountain bike. You want to do something like this but you think you can't. If this describes you, then I strongly recommend that you read this book. Rebecca Rusch is a world-class endurance athlete who reached that status by facing her fears, taking calculated risks, working hard and not giving up. Her message is simple; if she can do it, so can you. A lot of people

might say 'yes, but I'm just me!' Rebecca's point is that everyone is 'just me' for themselves. If you want it badly enough and are willing to put in the work, you can achieve your goals. Rebecca is down-to-earth, humble and very easy to relate to. She is honest about the issues she has struggled with, which include an eating disorder and the death of her father in the Vietnam War. This has not been an easy journey for Rebecca. Her story is very inspiring. I've put sticky notes in the book so I can quickly find helpful passages when my running isn't going well or I need a boost. I really can't recommend this book highly enough. It's worth your time and you won't be disappointed.

Having recently chosen cycling as my newest pursuit--at nearly 44 years old--I was searching for some inspirational reading to keep me focused. I hit the jackpot with this book! Rebecca takes the reader through the adventures of her life without an ounce of ego and does it with the voice of a writer as opposed to cocky professional athlete. I've read dozens of autobiographies in my life and this one easily makes the podium as one of the best. As opposed to Jens Voigt's autobiography, which was my first attempt at a cycling based book, this book is written in a smooth, professional style. Voigt's exploits may have come on a bigger stage in the shadows of legends like Armstrong and Indurain but his retelling is all "me, me, me" and "I, I, I". Rusch composed a thesis compared to the elementary writing style of Voigt's book. If there is ever any doubt you can push on, as an athlete or just at Life, Rebecca Rusch should be Required Reading.

Every sport needs heroes. They inspire us. They bring us to the edge of our seats. They encourage us to be more than who we are. More importantly, they sell us on sports. In terms of stardom, mountain biking got off to a slow start. If you asked ten people to pose the biggest name in MTB off the top of their heads, you'd hear ten different names. I believe that might never change and for good reason. Rusch to Glory is a story about embracing pain and chasing dreams. Rebecca's climb was awkward but ambitious and full of adversity. She embraced the struggle and built a career out of it. She might very well symbolize the kick off of a new age. An age where athletes begin their careers in their forties and continue on for many years. Granted Rebecca started much younger as an adventure racer but most anyone who hops on a mountain bike did something athletic when they were younger. The point is that age is slowly being removed as an obstacle to our dreams and this is a sport where they can be realized. I'm not saying that Rebecca is our new hero but she is now one of them. I'm saying her story teaches us that we don't need to elbow our way into a narrow spotlight. She's done very well for herself and we all love her but our heroes rarely appear in movies or on talk shows. Our heroes, much like our trails are many and varied. We simply inspire each

other. Rebecca's path didn't exist before she carved it but now that it does you can expect many to follow.

This is an absolutely terrific read. This is among the best motivational books i have ever read. I am old (67) and an avid 150 mile per week road cyclist. I am also a Pastor of a Church which is full of Tri Athletes and other cyclists. (1 Iron man so far) I am always excited to see men and women - young and old - who refuse to give in to life's difficulties. This is certainly not a 'Christian' book - but it is a great book about a wonderful young woman (young to me:) who doesn't give up - who is a model of the word persevere and who is giving back to her community and to many others (including me) who want to live life to the end with purpose. Being a Pastor i wish she knew Jesus like i do but she is made in the image of God and certainly is a credit to who God has made her.

Thank you, Rebecca for sharing this story that encourages and inspires all regardless of age, gender or fitness level. I loved the experience I enjoyed in that pages of your book. I was sad that it ended. I am an active 46 year old mom who loves to try all sorts of athletic activities, including mountain biking (which I find few women on the trails). Now I know where to look for some fellow biking women. Rebecca's Private Idaho perhaps? I think so! Here's to seeing you soon! Thank you, again, and God Bless!! Carry on, Sister!!
