I liked it because it was funny, sad and engrossing. I think it is a great book for many ages. Third and fourth graders can read it alone, but would recommend it read out loud by any adult. It will keep your attention. I like that there were only a few characters because I could keep everyone straight. I gave it five stars because it was well written and the development of the characters and story line was well paced and had good highs and lows.

My son had to read this for his 4th grade English class and it held his interest fairly well.

Love this story, read it to our children and have now purchased this for our grand children. It is about a boy who gets a cricket and gains some good lessons. Sweet story period.

Everyone loves an award winning children's book for their kiddos library! Thanks again, prime, for free shipping and for delivering this book on time at a fair price.

It's a book. With words. Required for 3rd grade class. Can't say I've read it myself but my child seems to think it's the bomb diggity.

My granddaughter read this book with her entire school. She loved it and went on to read the second book in the series.

Even though it's an old story, my boys and I (ages 7 and 8) really enjoyed this story of a cricket who becomes an entertainer in the New York subway but eventually returns home to Connecticut to play

to his forest friends.

My grandson loves this book. It is a great read for an 8 year old.
