Customer Reviews

Great little book! I carry it with me to remember all that I can eat and still lose fat. Ketogenic eating works!

still reading seems to have lots of good info.

Wonderful Seller; Will order from again :0)

interesting

While this book has some good recipes, as a whole it is poorly written. The author talks in circles and never tells you how to follow this diet plan. Also, the author repeatedly uses the term "immune" incorrectly. Don't waste your money.

This book very plainly spells out the ins and outs of all the Ketogenic Diet possibilities - For me, knowing the history and reading some of the success stories has made me more enthusiastic about helping my son be successful with the Modified Atkins Diet.

Informational and very helpful explaining the diet. Very good recipes too. I would highly recommend this if you are trying to get a better understanding of keto.

Too many mistakes that need to be edited and also includes misinformation. For instance, foods that aren't keto like milk and vegetable oil.
