Frank Lloyd Wright: The Rooms: Interiors And Decorative Arts

Synopsis

INDIEFAB Book of the Year Awards -- 2014 BRONZE Winner for Architecture An invitation into the evocative, human-scaled, and artful interiors designed by Wright. Frank Lloyd Wright: The Rooms presents the warm interior spaces and exceptional design work of this beloved American master. Wright was an early proponent of "total design." Unsatisfied with what was available in designing a given space or home, he invented what was needed, developing a language of architectural detail and styling that is unique and which extended to the tables, bookcases, easy chairs, sofas, and cabinets; to rugs and murals; to stonework; to stained glass "light screens," which served as windows, doors, and room partitions; and lighting. This approach was manifested distinctly in each of his residential projects. This book offers the reader an immersion into this work by means of extraordinary artful detail in intimately explored rooms and spaces. From the Oak Park Home and Studio in Illinois to the majestically appointed Darwin D. Martin House with its abundance of art glass, including Wright's famous "Tree of Life" and "Wisteria" designs, this luxurious volume ranges over the whole of Wright's oeuvre. It highlights a number of Wright masterpieces, including Hollyhock House, the mysterious Aztec-like home and arts complex built on a hill in Los Angeles; the Dana House, with its luminous "butterfly" transom glass; and the fabled living room at Fallingwater.

Frank Lloyd Wright The Rooms gives us a look inside the fabled homes he designed and shows us how he designed what he felt was needed when he couldn't find it. From furniture to lighting and windows, Wright designed all of it. The photographs are fantastic, and the text is absolutely excellent. I gained a much better understanding of the forces animating Wright's work.

I have an extensive collection of Wright books and this one is among the best in terms of interior photography and descriptions. Highly recommended!

Bought this for my husband. He is very interested in Frank Lloyd Wright but even if you're not specifically "in to" art or architecture this book is beautiful to flip through.
