I'll start by saying I like any book that has a map and numbering system in beginning and this certainly has one. I got this book hoping to learn a little more about the native wildlife of Arizona. What this book actually delivers is exactly as the title states: a viewing guide. It gives beautiful pictures of some really amazing locations and what to keep an eye out for as far as wildlife is concerned, but as far as additional wildlife information goes, you won't find that here. It does offer some basic guidelines every hiker should know when venturing into the Arizona deserts.

We added this one to our collection of WILDLIFE VIEWING GUIDES Series. Makes viewing and FINDING! what we are looking for: Birds primarily, but 4-legged animals, insects, flora.. Often recommends best times

This book is very informative about the wildlife of Arizona and the best places to view it. It covers the

entire state and the photos are very nicely done.

#### An older publication but has some great ideas for places to visit
