At an early age Shannon Kilkenny began what would become her career in event planning by gathering her neighborhood friends on a regular basis. Throughout high school and college she volunteered for committees and headed organizations allowing her to bring people together for a variety of reasons. Concurrently, she began a writing career with newsletters, articles, copy for marketing material, and later writing and editing guidebooks, user manuals, and how to books. These two careers continue in concert for more than 25 years. Her expertise and good humor created successful business relationships with clients in the banking industry, hospitality trade,

educational and non-profit organizations, professional associations, athletic clubs and the environmental community. Having participated with these diverse groups, Ms. Kilkenny is familiar with multiple segments of the business and social world. With the writing and event planning skills strongly embedded and using her multilayered experiences, the book, Successful Event Planning, was born. She is currently teaching event planning classes, workshops and seminars, and doing public speaking. She developed a curriculum for all levels of commitment. She has mentored beginners through their first event and assisted seasoned professionals seeking new heights of proficiency. Her latest endeavor for event planning is to help the industry create new Environmental Standards. She is in the process of writing her next book dedicated to greening the hospitality and event planning business. In her leisure time you will find her in her garden, in her kayak, or in the clutches of a good book. Ms. Kilkenny lives by the ocean North of San Francisco.

I don't know how this woman calls herself an event planner when she obviously hasn't ever written for public relations. Her writing is poor, repetitive, and hard to understand. I'm sure there are good skills for event planning throughout, but I couldn't get past chapter 3 due to the horrid grammar.

I had just started reading it but I can already see the usefulness of this book. unfortunately I have the Kindle version and it did not come with a companion CD. Is there any way to access the files or download them from somewhere so I will have them?

The CD was not with the book!

Brillant book I am so delighted with it. There is lots of helpful guidance that has helped me yo shape my business.

A must have if you are in the event planning industry!
