Best Sellers Rank: #230,536 in Books (See Top 100 in Books) #122 in [Books > Textbooks > Humanities > Foreign Languages > German](#)

Customer Reviews

This book wasted my money. It taught such little German. And what it taught was what a person could pick up watching TV. The lessons contained such a small amount of teaching. It should not have said, "52 Weeks of Family German," but 52 Days.

The idea and content of the book are ok, as are the suggestions and recommendations for further learning materials. However, I found several, serious errors by only leafing through the pages: a German word is spelled incorrectly and its pronunciation totally wrong; others in the pronunciation

guide lines might be typos. My main concern is the proposed German pronunciation of many of the German words. It does not reflect proper "High German". When I asked several people to read according to the italicized pronunciation, the outcome was rather dismal. I would also suggest that contact the author and editor (it seems to be a self-published book) and recommend they revise the book and correct errors. Until then, I strongly feel that should remove the book from its shelves.

Not what I expected. I thought this would feature games and actual lessons. But it just lists like 5 key terms each week and how to pronounce them. Literally that's it. I was disappointed.

Bought this for my nephew who is 6 and asked to take German. My sister now reads through and teaches both him and my 3 year old niece. Great German starter book

I have been studying german language off and on for sometime. The major hurdle is getting your family together to sit down and study together (Rosetta Stone etc) this makes it easier to start out and incorporate their interaction slowly.

Going to use this to teach my granddaughter some elementary German

It shipped fast but I haven't gotten really into the book. It was just to touch on the basics since I do speak German but have been out of practice. It is a simple book to get you going

We bought this to help get our son ready for a trip. It was easy to use and understand. I do speak some German so that may have played a part in its ease of use. Regardless, I recommend it to others as a good way to introduce the language to children.
