Battles Of The Revolutionary War And War Of 1812: 2 Sided [Laminated] (National Geographic Reference Map)

Synopsis

National Geographic's Battles of the Revolutionary War and War of 1812 map is rich with detail, illustrating significant battle sites and routes. The front side of the map illustrates the American War for Independence fought from 1775-1783, which spread from New England through the Middle Atlantic and into the South. It delineates the boundaries of the British and Spanish territories and the thirteen American colonies as well as the battle sites, which are categorized based on their impact on the war. British Army and Naval bases and the movements of the British, Americans, French, and Spanish forces are also included on the map. Several inset maps are featured, illustrating the War at Sea, and arrival of British forces in New York Harbor in July 1776, and the Battle at Yorktown in 1781. Other key events, including the Saratoga Campaign and the Invasion of Canada, are featured on the map. The reverse side of the print map illustrates the War of 1812, which was fought over maritime rights. It delineates the boundaries of the United States, the British territories, and unceded Indian lands, as well as the battle sites, which are categorized based on their impact on the war. British Army and Naval bases and the movements of the British and American forces are also included on the map. Several inset maps are featured, illustrating the Blue Water Naval Engagements and the battles of the Chesapeake, as well as the battles on the Niagra and the Detroit Frontier. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:4,270,000 Sheet Size = 36" x 24"

Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

My husband is a teacher and he really liked this for individual projects (the print is small, so using it as an anchor chart or class prompt isn't as easy).
