Brain Quest Grade 1 Math, Revised 2nd Edition

Synopsis

How many months are in one year? Does a perimeter go around a school yard or right through it? Which has more wheels: a bicycle or a tricycle? Plus operations, minute hands, money, number patterns, measurements, fractions, and Sally is fourth in line. How many people are in front of her? Math skills are crucial and there's no reason for students to struggle. Brain Quest Math Grade 1 teaches kids the fundamentals of math and the pleasure of being a problem solver with 750 curriculum-based questions and answers reflecting the latest school standards. Because learning plus practice, time, skill and drills add up to knowledge. Vetted by a panel of America's highest award-winning teachers, and embraced by kids and parents because it flat-out works, Brain Quest opens a world of information and education with its fast-paced question-and-answer format, bright full-color illustrations, and lively attitude.

Customer Reviews

It's O.K. to Be Smart! | Math Smart! Numbers. Operations. Triangles. Minute hands. It's the fundamentals of math and the pleasure of being a problem solver. Challenge yourself, challenge your friends! Challenge your parents! Because learning plus practice, time drill and skill adds up to knowledge. CURRICULUM-BASED! TEACHER APPROVED BY THE BRAIN QUEST PANEL OF AWARD-WINNING EDUCATORS

Marjorie Martinelli is coauthor - with Kristine Mraz - of Smarter Charts and the new Smarter Charts for Math, Science, and Social Studies. Their popular blog chartchums keeps teachers in touch with ongoing and relevant classroom issues and ways to use charts as a support. Chartchums is also on Facebook and on Twitter @chartchums! While in schools as consultants with the Reading and Writing Project, the teachers they've worked with have begged them to write a how-to book about the amazing charts they introduce to consulting classrooms. Smarter Charts was that guide, and Smarter Charts for Math, Science, and Social Studies extends that work across the teaching day. She is a staff developer at the Reading and Writing Project where for the past ten years she has lead numerous leadership groups and presented at many national and international educational conferences. Prior to joining the Reading and Writing Project, Marjorie was a New York City public school teacher, a teacher-researcher, and an adjunct teacher at Bank Street College of Education. She has an MA in Early Childhood and Elementary Education from New York University and is a contributing author to Lucy Calkins' Units of Study for Teaching Writing. She is also the author of two Brain Quest Math decks for first and second grade. Marjorie lives in Greenwich Village with her husband Tom, where they raised two daughters, Katherine and Christina. Listen to an interview with Marjorie and Kristi, the Chartchums, on Education Talk Radio.

I love to share this with my daughter. We both sit down and review the material. It gives me a chance to get involved in her learning and it gives her a chance to know her father as someone other than the guy who attempts to keep her on the right path.

Brain quest is best for kids

My daughter just finished k5. She love 31st doing these cards. She thinks we are playing a game.

Another truly great Brain Quest product! These cards are challenging and reinforcing - just what these little guys need! I love Brain Quest products!

Great learning books for my 3 yr old!

Perfect product

Not yet gone through the whole quest, but so far the material is great, but the quality of the paper is worse than the once I got from the store, not sure why...

Grandson love it, shipped fast
