A Sourcebook In Indian Philosophy

Synopsis

Here are the chief riches of more than 3,000 years of Indian philosophical thought—the ancient Vedas, the Upanisads, the epics, the treatises of the heterodox and orthodox systems, the commentaries of the scholastic period, and the contemporary writings. Introductions and interpretive commentaries are provided.

Average Customer Review: 4.5 out of 5 stars 24 customer reviews

Best Sellers Rank: #42,910 in Books (See Top 100 in Books) #18 in Books > Politics & Social Sciences > Philosophy > Eastern > Indian #81 in Books > Religion & Spirituality > Hinduism

Customer Reviews

"This book . . . is not only for the Western student, but for all of us who must gauge our impacted twentieth-century world and find our path in its confusion."--The New York Times

While I admittedly have only skimmed through a few chapters, this book appears to be genuine in its findings and not biased or of a political agenda. Some of you reading this may be familiar with Alan Watts. He's one kind of mystic and teacher, the spiritual entertainer who gives you his take on this source material. This is the source itself, I highly speculate, if not - very close to a compendium of Indian philosophy through the ages. Of course, one can begin chronologically with the Rig Veda, but if you find that in a book store most likely it'll be a compendium itself! The Rig Veda is somewhere around 1000 separate "hymns" and each one is at least a page... not to mention there are 3 other Vedas. All in all this is a nice compendium, and a good book to travel around with and read wherever you may have idle time. Especially if you're the philosophical type.

I've read philosophy for some years, including Eastern philosophy, and this book has been an excellent experience! Great, concise picture of important works produced by India thousands of

years ago but still valid if what you're looking for is something more than the discussion of theories not related to your daily, practical life. Although not a religious person, for the first time in my adult life I've started to find many, rational ways to reconcile intuition and reason (the old Western, mainly fictitious, dichotomy between heart and mind), and that's a lot! I recommend reading and re-reading, and studying and even making intimately yours (by heart) many of the teachings you'll find in A Source of Indian Philosophy

Must read for Indian, Hindu (religious) philosophy.

The item was delivered promptly and was as described.

the book is as expected very useful. Full of philosophy of best carakter it fits my expectations in any possible way.

This is the best broad source on Indian Philosophy that I've come across, but also provides a great level of detail to pursue further reading...love it!

Great sale !

I am extremely happy with the service provided and they ensured delivery of the book I ordered in good condition much before the time indicated. Well Done and Keep it Up. Kuldip Tiku
