Iceman (2017-) #1

Synopsis

Bobby Drake has been in the super hero game longer than most. But while reflecting on what he's accomplished over the years, he realizes that the legacy he's built is a few good one-liners and a string of failed relationships. Not only that, but now a younger version of himself has emerged from the timestream and he's more put together than Bobby ever was: already a world-class hero in his own right, but also totally comfortable in his own skin, complete with a relationship with a handsome Inhuman to boot. In this new ongoing series penned by Sina Grace (Burn the Orphanage, Self-Obsessed) and drawn by Alessandro Vitti (SECRET WARRIORS), Bobby realizes that the time is never or now, and sets out to build a life and legacy he can be proud of and be the best ICEMAN he can be!

Customer Reviews

Bobby Drake; prankster, kid brother of the X-men and one of the first students of Prof Xavier back in the day. Who'd have thought that Iceman would ever get his own solo series? Being a mutant is hard along with an Omega level one at that but when your past self comes to the future and being more honest with himself that makes you question everything you have done, that's a pain. Iceman issue

one shows Bobby in a new light and not such the complainer he has been for the past couple of years which is a breath of fresh air. This one explores his family ties and his own internal struggles with his orientation but peppers out with good quips (the non-Whedon brand) which is good to see. I was never much an Iceman fan but with this new series this will change my mind and hopefully for the better. If the team X-men books are too action driven than this series is rather chill (and that was an accident with the ice pun). I'm looking forward to the second issue!

I rated this a perfect because it is an original xman solo comic. Hopefully we will see more from the originals and less inhuman garbage.

Genuinely enjoyed the comic. Really looking forward to see where they take this the series. Reading it because of CYC podcast.

Fun, funny, and a little bit heartbreaking. Sina Grace does an excellent job getting inside of Iceman's head and showing how he's stuck between a rock and a hard place with regard to his mutancy and sexuality. With plenty of wisecracks along the way, of course!
