Official GRE Value Combo (Test Prep)

Synopsis

Save money and get intensive official GRE® test practice with this 2-book bundle from the makers of the GRE This bundle includes two Official Guides:-Official GRE Quantitative Reasoning Questions, Volume 1, Second Edition-Official GRE Verbal Reasoning Questions, Volume 1, Second Edition In this Official GRE® Value Combo you get all of the in-depth practice you need to do your best on the GRE test. For less than you would pay separately, the bundle packages two books of authentic GRE questions, specially created for GRE takers by Educational Testing Service, the company that makes the actual test. This two-book bundle is your ideal source for practice questions to use in your GRE preparation. With Official GRE® Verbal Reasoning Practice Questions and Official GRE® Quantitative Reasoning Practice Questions you get real GRE test questions, arranged by type and difficulty level for the Verbal Reasoning questions, and by content and type for the Quantitative Reasoning questions. Both guides have been completely updated to reflect the latest tests. The Official GRE® Value Combo offers:

- Significant savings over purchasing each book separately
- 300 real GRE test questions for the Quantitative and Verbal Reasoning measures of the test, arranged by question type and difficulty level
- An overview of the GRE Analytical Writing measure with writing strategies, sample writing tasks, and sample scored essays
- Answers and explanations for every question
- ETS's own test-taking strategies to help you do your best on the test
- Interactive content that is fully accessible for individuals with disabilities

Customer Reviews

Educational Testing Service (ETS) is a private, nonprofit organization devoted to educational measurement and research, primarily through testing. Founded as a nonprofit in 1947, ETS develops, administers, and scores more than 50 million tests annually including the TOEFL tests and TOEIC tests, the GRE tests, and The Praxis Series assessments in more than 180 countries, at over 9,000 locations worldwide.

These books are great for reviewing for the GRE. I got above the score I wanted from under a month of studying using these books. One thing about the QR books is the concept review part is in the back and the questions are in the front... Read the table of contents instead of just diving in like I did.

The book is not set up as organized as it should be, especially with the quantitative sections. The book should try to have the same type of problems with five or six practice sets, so you can master and understand that particular problem and build from there. In addition the book assumes you should understand how to solve each problem, and gives limited information on the results. There is also no index in either book for quick referral.

I took the GRE in Spring 2016 and many of the questions in these books were on the exam I took. I would recommend these books to anyone prepping for the GRE.

Did well on the GRE, don't know what else to add.

I withhold one star because even though the questions are good (they come from the horse's mouth), the printing is sub-standard. Many pages look like they have run out of black ink. Quality Control is to be blamed.

Lots of example and test, very helpful!

My wife uses these study materials everyday to help her prepare for the GRE she has this coming November. She loves the presentation of concepts and exercises given listed throughout the books.

have to buy it to get an idea
