Trace & Paint Flowers

Synopsis

Four renowned flower artists show how to paint beautiful paintings in watercolour and acrylics, and there are free pull-out outlines so that you can bypass the drawing stage. Wendy Tait uses transparent watercolour washes and luminous, glowing colours; Fiona Peart allows vibrant washes to run into each other in a spontaneous yet controlled way; Michael Lakin paints beautiful, detailed botanical studies; and Wendy Jelbert uses acrylics to paint lovely, varied flower studies. Learn to paint tulips, irises, poppies, sunflowers, roses and much more.

Excellent

Just what I wanted. Too old to learn to draw so being able to trace is great. The florals included provide a wonderful variety and different levels of styles and techniques. I ordered 2 more books in the series.

Really great book that helps one to make really beautiful water color paintings with little prior experience. Highly recommend this book.

It's a great fun and easy book. You don't have to be an expert to have an expert looking painting. This is not botanical painting. It's more 'free'.

Arrived on time and in perfect condition. Nice colors in book, traceable flowers are the correct size and it is overall an OK book. I can't draw, but I can paint, so this book is the right one for me. Book is good to add to collection of art books.

For a beginning painter this book offers clear instructions and good variety. Having tracings available helps develop confidence that finished painting will be good. Helps develop skills

Great Watercolor Book. I love it! Prompt shipping. Thank you so much. :-)

Great fun to do!
