## Synopsis

Welcome to your own little slice of paradise. Find it at the end of a meandering trail, or underneath a lush canopy of trees, or beyond a stone structure, weathered and overgrown. A trellised garden brimming with roses. A patio-turned-oasis with an abundance of potted plants. And the greens and fiery reds of a Japanese garden in fall. The Secret Garden Calendar invites you to a dozen garden retreats, soul-restoring sanctuaries composed of greenery, sunlight, vibrant blooms, and soothing water.

Even since a friend gave me my first one as a Christmas gift over ten years ago, I've been enamored with and regularly purchased this calendar. It used to be branded with the Smith and Hawken name (a name you could trust). I was afraid it would be discontinued when S&H went away, but to my delight the calendar remained. Every year it hangs prominently in my kitchen and I never fail to be delighted at the lushness and beauty of each page. Not only are the photos

gorgeous, but the production itself is top-notch. If you're a gardener like me, I believe you will fall in love with this calendar, too.

This is the first time I have purchased the Secret Garden calendar, but I will be a regular customer from now on. The photos and the gardens they show are truly lovely. I would be thrilled to have my garden look 1/100 th as good as the gardens photographed. The layout of the calendar section is also very pleasing to the eye. If you love gardens, this is the perfect calendar to have.

If you are searching for a truly beautiful calendar to give as a gift to yourself or others, this is the one! Not only are the garden pictures tranquil and delightful and the calendar pleasing to the eye year-around, the size and utility of this calendar are well thought-out and perfect for my needs. Open, it measures 2' tall X 1' wide so will fit in a relatively small space. The photos measure approximately 11 3/8" X 11 3/8" and would be suitable for framing... they could be displayed either together on a photo wall, or separately as a vibrant but soothing, touch of elegance. There is ample space to record appointments and events in an easy-to-read size (each date provides 1 3/8 X 1 7/8 of space). I first discovered these calendars while searching .com last year for the perfect one... as a native of Oregon, I very much appreciate the greenery year around and just seeing the pictures in the winter give my soul joy and hope. The Secret Garden calendars have inspired many compliments from visitors who all said it is beautiful. I looked for this calendar specifically this year, and so far have given two as gifts that were greatly appreciated. The price is extremely reasonable, so if you are looking for a beautiful calendar that you will not tire of, this is the one. At age 60, these are the most beautiful I have ever seen.

I live in Iowa and have yet to make peace with the winters here. This calendar gives me 12 months of photos of beautiful, lush gardens instead of 'seasonal' photos with wintry scenes in the Nov-March months. This calendar gives me a nice break from the grey winter all around me during those months, and helps me remember there are warmer, lighter and more colorful months ahead. The photos and gardens themselves are superb. Not a dud in the lot, ever.

This calendar is a classic and I order every year for a dear friend and for myself. We both love it and have always thought a secret garden is a little part of "heaven on earth". Highly recommend for all those who love to garden or those that love to sit in one and drink in the breath of creation!

I get the Secret Garden calendar every year. The pictures are outstanding.

I've been getting this calendar for the last few years for my office, and the pictures are just stunning.

I've bought the Secret Garden calendar for years, and it always delights. The pages are a good size, the paper is a nice weight, and the photos are always outstanding. I usually have two or three calendars each year, this one for the kitchen and others for the bedrooms. I vary the theme of the others from year to year. but this one is a must. I've never had a problem with the weight pulling the calendar off the wall with this, either.
