I would have to say, the last few chapters of the book were the best.....otherwise this installment of the Gender Game series sort of dragged a bit. It was nice to again hear the thoughts of Viggo and Violet, and it was clear that SOME tyrant would be exposed, but I fought a yawn for the bulk of this book. However, as is often the case with series, some books are foundational in building to a climax, and perhaps this is the book to fill that role in this series. It was still well written and the characters well developed, so I give it 4 stars and do recommend it.

I like this series. I'm a middle aged woman who's a big fan of YA fiction, such as Twilight, The Hunger Games, Divergent & The Vampire Diaries. I was very pleased to find another series to get hooked on, and this series has not disappointed. I believe it would make a great film series as well. It's good fun with a nice little love story. Enjoy!

This series is absolutely amazing. The idea behind it and all the thought that has gone into writing it is truly beautiful. Youngin you understand the story and what's going to happen and then this amazing author pulls the rug right out from under you. I cannot Jennifer how complicated and complex this series is and how beautifully designed the characters are. Please,please read this series and recommend it to your friends. Because I haven't stopped recommending it to mine!

This series is so good!! I can't put these books down. I didn't even guess how the twist and turns would go. I'm very impressed with this series because I keep learning information that I had questions about(unlike some other series) and the third book was just as good as the first and second. On to book 4!

On the edge of my seat through this whole book, the adventure continues! I was reading nonstop discovering new things at every chapter, with twists I never imagined! Hooked again, can't wait for the next book to see this story unfold! A must read for all ages this books left me palpitating and thirsty for more!!

Enjoyed this third installment of The Gender Games. Just as the first two books were well detailed and kept you guessing, this one did as well. Recommend to others, especially if your not familiar with Bella Forrest as an author . I've read any and all books I've been able to find that she has written, haven't been dissapointed.

I don't like it when it seems series start to drag things out, seemingly to sell more books. I can see why there is criticism about Book 3. Hoping this is not a trend for future books in this series. Will try book 4....

The Gender Plan Series popped up on my recommended reading after reading The Hunger Games & Maze Runner & other dystopian books. Enjoyed the read & looking forward to the release of book 7!
