## Synopsis

**ALERT:** Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- Bob Blitzer has inspired thousands of students with his engaging approach to mathematics, making this beloved series the #1 in the market. Blitzer draws on his unique background in mathematics and behavioral science to present the full scope of mathematics with vivid applications in real-life situations. Students stay engaged because Blitzer often uses pop-culture and up-to-date references to connect math to students' lives, showing that their world is profoundly mathematical. 0321900510 / 9780321900517 Precalculus plus MyMathLab with Pearson eText -- Access Card Package Package consists of: 0321431308 / 9780321431301 MyMathLab/MyStatLab -- Glue-in Access Card 0321654064 / 9780321654069 MyMathLab Inside Star Sticker 0321837347 / 9780321837349 Precalculus

## Customer Reviews

Bob Blitzer is a native of Manhattan and received a Bachelor of Arts degree with dual majors in mathematics and psychology (minor: English literature) from the City College of New York. His unusual combination of academic interests led him toward a Master of Arts in mathematics from the University of Miami and a doctorate in behavioral sciences from Nova University. Bob is most energized by teaching mathematics and has taught a variety of mathematics courses at Miami-Dade College for nearly 30 years. He has received numerous teaching awards, including Innovator of the Year from the League for Innovations in the Community College, and was among the first group of recipients at Miami-Dade College for an endowed chair based on excellence in the classroom. Bob has written *Intermediate Algebra for College Students*, *Introductory Algebra for College Students*, *Essentials of Intermediate Algebra for College Students*, *Introductory and Intermediate Algebra for College Students*, *Essentials of Introductory and Intermediate Algebra for College Students*, *Algebra for College Students*, *Thinking Mathematically*, *College Algebra*, *Algebra and Trigonometry*, *Precalculus*, and *Trigonometry* all published by Pearson.

This book was about 30-40 cheaper than offered on my university's website, it is expensive but needed for a course. I looked for this book on other websites and provided the best deal. I am in still in the class but this book is doing its purpose.

Bought this to use w/ WGU's pre-calculus/trigonometry course. It works well, but I still need to watch Youtube videos for some extra help.

Too disjointed in the organization of topics, concepts. Problem sets were good!

Size of book seems daunting, but once you get into it and see the in-depth examples and explanations you will understand why it is so large. You will find it a treat and asset if your professor is using this book. Thank goodness shipping was so quick - arrived just in time for first day of class. You might like the companion solutions manual. Worked-problems are very easy to follow.

Just as described, the way it should be.

Its the books I needed!!

excellent condition

Did not have the math lab
