Leaders Made Here: Building A Leadership Culture

Synopsis

Leaders Made Here Great leaders create great organizations. However, a scarcity of leaders today means a shortfall in performance tomorrow. Don't gamble with your company's future! You don't need to hope that leaders emerge from the ranks or that search firms can find the leaders you need in a timely fashion. Hope is not a strategy! You can build an organizational culture that will ensure your leadership pipeline is full and flowing. Bestselling author and Chick-fil-A executive Mark Miller describes how to nurture leaders throughout the organization, from the front lines to the executive ranks. Leaders Made Here outlines a clear and replicable approach to creating the leadership bench every organization needs. To bring his ideas to life, Miller uses the story of Blake, a new CEO, and Charles and old friend and colleague, as they search for the best practices from around the world to ensure a continuous supply of their most precious asset – leaders. Blake and his team then translate their findings into a practical plan that any organization can use to create a leadership culture, sustained competitive advantage, and long-term success.

Another great book from Mark Miller. We need more leaders, less managers. Every sector of society has plenty of managers, but where are the leaders and who are developing them? Too often we complicate leadership development process and forget the end game - developing a pipeline of qualified leaders. I appreciate Mark's approach to simply share the message in story and allow the reader to contextualize to their own situation. I've always been challenged to raise my game with Mark's coaching.

I have been an avid reader and fan of Mark Miller's leadership materials for several years.
